- FDDI
- ESCON
- MTP / MPO

Mil-Spec Fiber

- M28876, M83526, M38999, TFOCA, ARINC 801, FS12 Pierside, MIL-C-83522 ST

Optional Metal Crimp Sleeves (M38999 Only)

Design Capability

Stonewall has the design and manufacturing capabilities to offer the best solutions to your cabling needs. We provide cables for a wide range of precision applications such as the Event Horizon Space Exploration Program and Super Bowl broadcasts.

Premier Manufacturer

At Stonewall Cable, we strive to be the premier manufacturer of the highest quality cables sold to government & industry. Stonewall's customers include 9 of the top 10 government contractors and 9 of the top 10 defense contractors. All cables are quality-made in the USA.

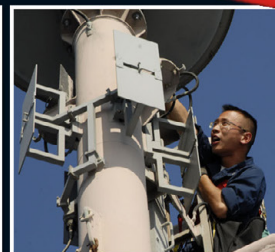

Encryption Cables

Stonewall Cable manufactures a complete line of cables for encryption devices including KIV-7, KIV-7M, KIV-19, and KIV-19M. All of our encryption cables meet Military TEMPEST Standards, and use full metal hoods for superior durability and reliability.

Decades of Innovation

For over three decades, we have manufactured the highest quality communication cables which can be found on every continent. Our assemblies are utilized by some of the world's most innovative companies (Lockheed Martin, Raytheon, Boeing, General Dynamics, etc).

UNMATCHED QUALITY RECORD

*"When I need cables, my first and only call is to Stonewall Cable."
- Program Manager - Top 10 Defense Contractor*

*"As far as design, I leave that up to Stonewall... our trusted SME {Subject Matter Expert} on cable builds."
- Senior Systems Engineer - Top 10 Defense Contractor*
