Altizon Continues to Expand Partner Ecosystem to Support Customer Success in IoT

Altizon, a pioneer in Industrial Internet of Things today announced that it continued to rapidly expand its partner ecosystem for IoT with a strategic collaboration with Altimetrik.

With a rapidly growing portfolio of partners for Datonis, the flagship Industrial IoT Platform of Altizon, that serves over 100 global enterprises, customers can have access to an ever increasing number of partners on both hardware as well as application side to enhance the ROI of their IoT investments and avail cutting edge technologies for their implementations. Customers can now choose from a large number of partners who can help them implement an Industrial IoT solution in record time and at a lower cost.

Altimetrik will be instrumental in applying the potential of Datonis in various enterprise scenarios across industries. Their strength lies in bringing together aspects of business & technology consulting, physical product engineering capabilities, multi-faceted ecosystem and pioneering experience of implementing IoT for global manufacturing players

Sidharth Sujir, VP Partnerships, Altizon said" The growth of partner ecosystem cements our faith in not just our own value proposition, but also emphasizes the trust of reputed Industry players in the vision of IoT to transform the way manufacturing works. We are committed to working closely with our partner community of system integrators and independent software vendors to offer our customers the services and applications they need for greater productivity & Effectiveness and maximize the true potential of IoT for manufacturing."

"We are happy to partner with innovative IoT platform providers such as Altizon in our journey towards building cross-industry connected solutions in both, domestic and international markets. Having worked with several global enterprises, Altimetrik is proud to be leveraging and implementing emerging technologies such as IoT to help businesses solve problems of today and create newer possibilities for tomorrow" says Giridhara Madakashira, Chief Information Officer, Altimetrik.

About Altizon

Altizon is the world's first Industrial Internet Platform company focused on making Enterprises Internet of Things(IoT) ready. Altizon's flagship product, the Datonis® IoT Platform, helps enterprises build IoT products and solutions in weeks by providing device connectivity kits, a device management layer, a highly-scalable, real-time, big-data analytics engine and alerting and monitoring services. Enterprises use Datonis® for driving Condition Monitoring, Predictive Analytics and Machine Learning solutions. Learn more at http://www.altizon.com
