FOR IMMEDIATE RELEASE

FieldConnect and Viewpoint Strengthen Partnership Agreement for Superior Customer Impact in Field Workforce Automation and Service Management

Viewpoint Construction Software and FieldConnect, a provider of field service management software, announced an enhanced strategic collaborative partnership today to continue delivering an exceptional integrated mobile service solution to customers. The partnership combines Vista® by Viewpoint with FieldConnect Mobile Field Service Software, helping employee and management be more productive in the office and the field by automating mobile work order management. Capabilities include time, work order history, parts, assets, tasks, signatures, attachments, and more.

The partnership between Viewpoint and FieldConnect creates a fully comprehensive workforce management solution that offers efficient data management, time and payroll solutions, work order system, and much more. Integration with Vista and FieldConnect enhances internal controls, data integrity, and limits reconciliations because entries are only made to approved labor codes, problem codes, part numbers, projects, work orders, and purchase orders that are set-up within the Vista application.

The advanced solutions with FieldConnect's FieldAccess mobile technician software, field technicians' access, update, and complete electronic work orders, means getting the day's assignments without making a trip into the office. With time and payroll solutions, technicians complete electronic timecards from the field which are reviewed and approved by a supervisor and updated in real-time in Vista. Because the data is updated instantly, you can expect faster time-to-invoice, error-free payroll, and improved cash flow.

"Viewpoint has quickly become an important partner. With an outstanding product, committed team of experts, and an emphasis on Customer Satisfaction, Viewpoint as an organization reflects our principles. We're proud of our association and are working to make FieldConnect an outstanding member of that Viewpoint ecosystem of partnerships." –Robert Hughes, Founder and CEO of FieldConnect, Inc.

About FieldConnect

Since 2002, FieldConnect has provided mobile solutions designed around the needs of field service organizations – from your field engineers to your dispatchers, to the back office, and your end-customers. FieldConnect provides mobile field service software to best-in-class field service organizations, driving service department revenue and removing inefficiencies. FieldConnect's solutions integrate directly with and are an essential extension of Vista by Viewpoint. www.FieldConnect.com

About Viewpoint

Viewpoint is a provider of innovative construction-specific software solutions to the global construction and capital project industries. Viewpoint provides the tools these industries need to improve project profitability through better visibility, risk management and real-time team collaboration. Viewpoint solutions address the full construction life-cycle from planning/bidding to construction and facilities maintenance. Viewpoint's solutions are offered on a variety of platforms, including Cloud, Mobile, SaaS and On Premises. Headquartered in Portland, Oregon, USA, and with offices in the UK and Australia, Viewpoint has become the technology partner of choice, with customers located across the globe in more than 28 countries. These customers include more than 40 percent of the ENR 400, and over 20 percent of the ENR 600. For more information, please visit www.viewpoint.com.
