

About Polaris Associates

Self Service Reporting & BI Solutions

Who We Are

In 2006, a group of Oracle executives with more than 80 years of combined experience in the Oracle ERP space saw a need for an easier, higher quality reporting solution. They recognized that business users needed better operational reporting capabilities and high quality professional services at a reasonable cost. To meet this need, this group of Oracle executives founded Polaris Associates and created the Reporting Workbench product, an immediate success in the marketplace. In 2015, the Polaris team launched its second product line - ORBIT Analytics, a self service business intelligence solution that allows users to easily analyze information from multiple data sources.

What We Do

At Polaris Associates, we are passionate about delivering the solutions our customers love. Our products have robust engineering below the surface, but the user experience is designed to be extremely simple and adaptable. By providing optimal business solutions and accelerating the achievements of our customers' business objectives, small non-profit organizations to Fortune 100 companies have recognized us as a strategic partner.

Our Products

Reporting Workbench

Self Service Reporting
for Oracle E-Business Suite

- Self Service Operational and Transactional Reporting solution for Oracle E-Business Suite, and also an Oracle Discoverer replacement.
- Integrates directly with Oracle E-Business Suite and includes 900+ pre-built reports/dashboards/views.
- Delivers powerful operational, adhoc, and dashboard analytics, all in one package.

ORBIT Analytics

Self Service Analytics
for ERP & Cloud Applications

- Easy to use Operational Reporting and Business Intelligence solution that enables end users to develop their own analytics from any data source.
- Pre-built integration with several common ERP and Cloud applications such as Oracle E-Business Suite, PeopleSoft, Taleo, and Salesforce.
- Superior reporting platform for enterprise data from any application, any data source, and on any device.

Our Services

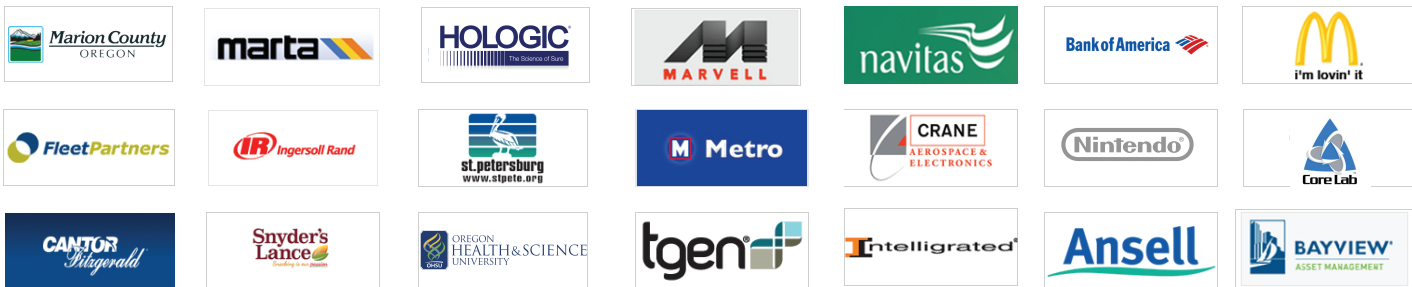

Polaris experts have achieved 100% customer success by focusing on perfecting implementations for Oracle E-Business Suite, PeopleSoft, and Taleo. Our team of Oracle experts have implemented Oracle applications in over 20 countries in North America, Europe, Australia, and Asia.

Featuring:

- Application Implementations and Upgrades
- Implementation of BI Applications
- Technical Services for Reports development, Application Integration, and Custom Projects
- Application Managed Services
- Oracle DBA Consulting Services

Our Customers

Our Offices

Since our start in 2006, Polaris has grown substantially in the United States and across other countries, with no sign of stopping. We are actively engaged with Oracle's Development organization and with Oracle customers and are proud to work with partners all over the world.
