

## **PIONEER TECHNOLOGY GROUP EXPANDS ACROSS COLORADO WITH LANDMARK INSTALL IN MESA COUNTY**

*Landmark, a state-of-the-art land records software, has gone live in Mesa County, CO which will help to streamline interactions with public records for its citizens.*

Mesa County began exploring their options for a recording system in the hopes that they could improve their workflow and provide more for their customers. The move to Landmark has done just that by providing Mesa County citizens with efficient and responsive tools, like online access to marriage license kiosks that reduce the wait time in applying for a marriage license. Using Landmark, the Mesa County Clerk and Recorder now has the ability to scan all recordable documents immediately upon receipt. As soon as a new document is recorded in Landmark, it becomes available on a public website in real time.

Sheila Reiner, the County Clerk & Recorder in Mesa County said: “My staff reports that the dashboard is a really nice feature. It is far more efficient for us to have our customers maintain their own internet account. I love being able to provide our citizens with a solution to easily access their public documents from anywhere.”

Mesa County joins a growing list of customers in Colorado to sign on for Landmark, and the 24<sup>th</sup> to go live. Pioneer is no stranger to Colorado; the City & County of Denver has received gains in efficiency from Benchmark, Pioneer’s Court Case Management software earlier this year. In addition to Landmark and Benchmark, Pioneer fields a suite of software solutions in the fields of tourist and bed tax collection, property deed sales, and jury management.

Vice President of Sales & Marketing for Pioneer, Ryan Crowley, had this to say: “Our partnerships with customers is something we take a lot of pride in and the relationship we have built with the Mesa team is no exception. We believe this to be the beginning of a long and successful partnership, and anticipate even greater developments in years to come.”

### **About Pioneer Technology Group**

Pioneer Technology Group (Pioneer) is a leading developer of software solutions and services to Governments and the private sector. The company is headquartered in Sanford, Florida and recently opened a location in Wooster, Ohio. Offerings include: Benchmark, a court case management system, the Landmark official records system, the YourDox title document system, and tax processing systems for counties and municipalities. Pioneer also provides content management systems and a scanning services bureau for transitioning paper to digital images through its subsidiary, Pioneer Records Management. For more information about the company, please contact Kristina Rumsey at [krumsey@ptghome.com](mailto:krumsey@ptghome.com) or visit Pioneer’s website at <http://www.ptghome.com>
