### About Global Adoptee Genealogy Project (GAGP)

GAGP is a collaborative project of the Mixed Roots Foundation in partnership with Family Tree DNA and Spokeo. GAGP serves as a one-stop resource that includes a comprehensive website where individuals can go to discover their biological and cultural roots through DNA testing as well as access a unique support network of important search & reunion services.

Family Tree DNA test kits are available for purchase off the GAGP website. A portion of each DNA test kit sold will benefit the Filling in the GAGP Fund which will allow GAGP to offer FREE DNA testing to those in need.

GAGP and its partners will continue to expand its resources including growing the Family Tree DNA database so more matches can be made. GAGP will also continue leveraging science and technology to make a long lasting impact on the millions of lives that have been touched by adoption, foster care and beyond.
