Secure Exchange Solutions Achieves Constant Growth of Integrated Secure Messaging users from iPatientCare's Users Base

Secure Exchange Solutions (SES) a Health Information Service Provider (HISP) leading the field of fully integrated direct messaging solutions, reports continuous growth of integrated secure messaging users from iPatientCare's users base.

Woodbridge, NJ, November 30, 2016 — iPatientCare, a pioneer in cloud-based ambulatory EHR and Revenue Cycle Management services, announced achieving significant growth in integrated secure messaging users powered by Secure Exchange Solutions (SES), a Health Information Service Provider (HISP).

Secure Exchange Solutions providing its integrated secure messaging services to iPatientCare users since 2013 as well as being active sponsor/exhibitor of iPatientCare National User Conferences. iPatientCare was proud to host the annual gala event, NUCON 2016, with Secure Exchange Solutions (SES) as one of the Sponsor and Exhibitor.

"We selected Secure Exchange Solutions as our preferred partner because of their superior products and easy-to-integrate processes. iPatientCare HISP powered by SES would provide direct mail capabilities that will allow our users to improve care management through the real-time exchange of patient health information, securely without interrupting their current workflows," said Shripal Shah, Sr. Technology Officer, iPatientCare.

"We are pleased to be a part of the interactive, interoperable and intelligent technology developed by iPatientCare," said Dan Kazzaz, CEO of Secure Exchange Solutions. "iPatientCare users have access to our industry-leading Direct messaging solution, fully integrated into the iPatientCare system for a seamless user experience, helping clinicians to achieve their Meaningful Use goals and to easily exchange patient information with other providers."

About iPatientCare:

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company's unified product suite includes Electronic Health/Medical Record and integrated Practice Management/Billing System, Patient Portal/PHR, Health Information Exchange (HIE), and Mobile Point-of-Care Solutions for both Ambulatory and Acute/Sub-acute market segments. iPatientCare has been recognized as a preferred MU partner by numerous Regional Extension Centers (REC), hospitals/health systems, and professional academies.

iPatientCare EHR 2014 (2.0) has received 2014 Edition Ambulatory Complete EHR certification by ICSA Labs, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with

the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS).

Full certification details can be found at ONC Certified Health IT Product List.

The ONC 2014 Edition criteria support both Stage 1 and 2 Meaningful Use measures required to qualify eligible providers and hospitals for funding under the American Recovery and Reinvestment Act (ARRA).
