**New Poster Illustrates Sewer Camera Configurations for Every Sewer Inspection Workflow.**

*Envirosight Will Mail Sewer Inspection Professionals a Complimentary Poster, Which Illustrates a Wide Range of Sewer Camera Configurations.*

RANDOLPH, NJ—December 8, 2016— In a new poster, EnviroSight lays out the variety of accessories that can be added onto the ROVVER X sewer inspection crawler, the most capable inspection crawler platform available. With a variety of wheel, camera and lighting configurations, ROVVER X is the only single-system crawler that can inspect lines from four inches in diameter all the way up to 96 inches. Clearly illustrating the range of configurations, this poster is an ideal reference for any municipal office or inspection van.

“A sewer camera that can be easily customized means contractors and municipalities can spend less money on equipment by purchasing one versatile sewer inspection crawler,” says Jake Wells, Director of Marketing for EnviroSight. “We designed this poster to illustrate how ROVVER X sewer inspection crawlers can be customized for any community and any project.”

This poster is offered as part of EnviroSight’s commitment to create and share reference material that benefits wastewater industry professionals. To request a complimentary ROVVER X Crawler Configurations poster, visit [http://inbound.envirosight.com/rvx\\_versatility\\_poster](http://inbound.envirosight.com/rvx_versatility_poster).
