

SECURE YOUR ENTERPRISE

Move Beyond Traditional Cybersecurity to **Cyber Resilience**

TSC Advantage Offers

- > Risk-Based Security Assessments
- > Penetration Testing
- > Security Program Development & Management
- > Managed Data Loss Prevention (DLP) Services
- > Supply Chain Risk Management
- > Security Intelligence Reporting
- > Competitive Intelligence & Due Diligence
- > Training & Awareness

TSC Advantage is an innovative leader in enterprise risk assessments, cybersecurity consulting, and managed services. We provide an objective understanding of your security posture to help you prioritize resources for a proactive and holistic defense of your enterprise.

We're trusted by the nation's largest utilities, global insurance underwriters, Fortune 500 companies and federal agencies.

Beyond Technology, Beyond Compliance

TSC Advantage works alongside clients as a trusted advisor, not just to meet compliance standards, but to promote and empower risk-based security maturity. Our Enterprise Security Assessment (ESA) examines vulnerabilities across six critical domains (right) to reveal gaps that elude software and hardware solutions, and to support strategic corporate goals.

WHY CHOOSE TSC ADVANTAGE?

Let TSC Advantage help you chart a path to **reduce harm** and **recover faster**

Praise for TSC Advantage's Award-Winning Enterprise Security Assessment (ESA)

The client "got kudos from their board of directors, they had a very actionable plan to help justify their information security spend and hiring the resources they wanted, and they also got a reduction on this year's renewal for their information security insurance program."

— *Senior VP,
Insurance Partner*

Value for Your Whole Team

- High-level summary report informs executives and the Board for strategic risk management
- Detailed findings by domain help mid-managers, risk managers, and security professionals achieve tactical "quick wins"
- Strategic recommendations guide longer-term improvements
- Benchmarked risk profile score and domain maturity level help compare performance against recognized international standards and industry aggregate

Enterprise Security with a Difference

- As Lloyd's of London's preferred security assessment provider, we quantify cyber risk in support of cyber insurance policies
- U.S. DHS SAFETY Act designation provides ESA customers with guaranteed liability protection from third party claims arising from a Covered Act of Terrorism
- Industry-specific guidance accommodates unique risks and operational environments
- Trusted by the U.S. government and national security community to provide specialized intelligence and cybersecurity services
