

You're invited.

At Sugarland Modern Dentistry, our very own Dr. Jacob Dent and The Pacific Dental Services Foundation have long been pioneers in the special needs dental treatment space. Recently, they have partnered to transform Dr. Dent's dental office, Sugarland Modern Dentistry, and open a brand new office dedicated specifically to treating special needs patients.

You are invited to help us celebrate this achievement and see the new facility for yourself. It's going to be a special evening in honor of some very special patients, and we hope to see you there!
