

## Six Switches, Limitless Possibilities. Stomp Into The Future

The new **STOMP 6** by **AirTurn** gives you the flexibility you crave on stage. It has 6 industrial grade footswitches in a full-metal enclosure that lets you control your rig without breaking from your performance. It connects wirelessly over Bluetooth to any computer, tablet or smartphone. With the limitless possibilities of apps that work with **AirTurn**, you're only limited by your imagination.

The **STOMP 6** works flawlessly with **ONSONG**, the best app for managing your stage performance. Navigate effortlessly through songs in your set list and then trigger backing tracks, visual media, light shows and much more — all with a stomp. Powerful MIDI controls in **ONSONG** let you preset your effects pedals, synthesizers and drum machines for each song you play. **ONSONG** gives you access to 40+ actions that gets you the gig.

Toss the toys. The **STOMP 6** is made in America with metal, yet it's lightweight and portable. It's wireless too so nothing gets in your way.

## Introducing the **AirTurn STOMP 6** in **OnSong**

**AirTurn** is the world's leading manufacturer of wireless foot pedals that enable a new class of music performance. Since 2010, **OnSong** and **AirTurn** have together enabled musicians to bring the power and flexibility of modern computing to the stage.

### Perform Anywhere

Going paperless with your music means more flexibility. Import your charts with ease or create your own songs with **OnSong**. You're always organized so there's no more flipping around with binders looking for the right song in the right key. Pulling sets is just as easy. With the **AirTurn** lineup of foot pedals, you can play for hours without ever lifting a finger. Put your iPad in a case and mount it on a mic stand with a **MANOS** mount. Neither darkness, wind nor rain will keep you from the music.

### Jam In Any Key

Never worry about forgetting a song again. If it's in your library, you're ready to jam. The powerful transposition engine in **OnSong** let's you put the song in the right key. Apply a capo and **OnSong** handles modulating chords so you can spend more time playing music and less time remembering music theory. With the **AirTurn STOMP 6** and **OnSong**, you can assign an action to transpose and capo on the fly.

### Let The Music Play

Sometimes it's hard to get the band back together — or maybe you're a solo singer/songwriter. With backing tracks, you can fill out your sound and engage the audience. **OnSong** lets you link each song in your repertoire to audio tracks you can trigger with just a touch of a finger, or the press of a pedal. Built in crossfading even lets you keep the show flowing. The **AirTurn STOMP 6** gives you even greater control of playback.

### Pedal To The Metal

The **AirTurn STOMP 6** features an all-metal enclosure with six, stomp-style foot switches. Mount and plug it into your pedalboard power supply or use it all by itself with a standard 9V battery (included). The **AirTurn STOMP 6** connects wirelessly to most all Bluetooth-enabled devices for leveraging the capabilities of 100's of apps in your gig.

### Don't Forget It, Preset It

Your audiences demand more and now with **OnSong** and the **AirTurn STOMP 6**, you can deliver the performance you've imagined. Preset MIDI and control all of your effects processors, instruments, foot pedals... even other apps! **OnSong** lets you link MIDI to each part of the song, or you can trigger MIDI right from the **AirTurn STOMP 6**. Since MIDI is built into all professional music gear, you have all the power of the pros.

### Light It Up

**OnSong** isn't just chord charts and sheet music, it's all about your stage performance. Add visual flair to your show with lighting, lyrics and video. You no longer need expensive equipment or complex programming to make your show shine. Whether you're playing on the main stage or in the local pub, you can make a scene that draws a crowd. The **AirTurn STOMP 6** lets you control it all on stage with **OnSong**.

### Limitless Possibilities

The **AirTurn STOMP 6** gives you six rock-solid switches to obey your every whim. That might not seem like much, but assign 40+ actions to those pedals in **OnSong** and you can do everything you need while never breaking from your audience. Use triggers to perform multiple actions with one stomp, or shift into a higher gear to surpass your physical limitations. **OnSong** and **STOMP 6** is the perfect combination for performers.
