Windows   intel Technology Provider   DELL   cPanel   CentOS

Since 1999, we've been delivering hosting solutions that are incredibly fast, astonishingly reliable, and save money. While other hosts lease data center space, we own and operate our own datacenter in the US.

We create unparalled value for our customers -- not by offering a sub-standard product at a low price, but by offering a top-quality, feature rich product at an incredible price.

Our Data Center

- Redundant Bandwidth Providers
- Cross-Connected with Metro Fiber
- Staffed 24x7x365
- Dual Power Grids
- Self-Sufficient Cooling Systems
- 24x7 CCTV Monitoring

Fast & Reliable Network

- 100% Cisco Powered Network
- 30 Gbps National Network
- Unlimited Inbound Bandwidth
- Secure VPN Remote Access
- Advanced Routing Automation
- Network Layer Firewall

Award-Winning Service

- HostReview Best Dedicated Server Host Award Winner 2016
- 24x7 Support via E-mail, Chat and Phone
- Free Hardware Replacement
- Expertise in Multiple OSs
- Resource Portal and Service Center

Enterprise Hardware

- Dell & Supermicro Server Hardware
- Intel & AMD Processors
- Western Digital and Seagate Hard Drives
