iPatientCare Takes Pride in Announcing the Achievements Throughout Year 2016

iPatientCare celebrated its achievements of being honored by IHE and HIMSS as one of the Health IT Industry Leader, being Qualified PQRS Registry for 2016 by CMS, earning a White Coat of Quality Award by Surescripts and its selection in top 10 position for various categories by Black Book™

Woodbridge, NJ, January 26, 2017 — iPatientCare, cloud-based ambulatory EHR and Revenue Cycle Management services, celebrated its achievements in product capabilities/certifications and record expansion of its user base in the year 2016.

The key achievements during year 2016 is iPatientCare being honored by IHE and HIMSS as one of the Health IT Industry Leader at IHE NA Connectathon Leadership Conference on January 27, 2016 at Cleveland, Ohio. HIMSS and IHE understands the challenges faced by the health care providers in connectivity among disparate EHR Systems and Health Information exchanges (HIEs) and hence decides the interoperability thresholds that are higher than those defined by Meaningful certification. iPatientCare, after its rigorous testing to technical specifications, was named with such an award.

Second on the row, important achievement was iPatientCare named as a Qualified PQRS Registry for Year 2016 by CMS for the third time consecutively. Hence all Nationwide practices will be able to avail the iPatientCare PQRS Reporting services to Report the Healthcare Quality Measures for the year 2016 to the CMS. iPatientCare also announced its significant achievement of helping numerous physicians' offices and eligible providers in reporting 2015 quality data through its qualified PQRS Registry.

iPatientCare e-prescribing system is carefully designed to provide greatest care quality and patient safety at the best possible quality standards. As a result, in April 2016, Surescripts awarded iPatientCare EHR with the prestigious 2015 White Coat of Quality Award.

Additionally, in the same month, iPatientCare successfully launched the "new" Patient Portal as part of its comprehensive Patient Engagement Suite, which got tremendous reception and recognition at the recent HIMSS16 at Vegas. The new release of Patient Portal has been designed to focus on new generation of consumers who need to be actively engaged in their health and care and ensure Meaningful Use compliance of iPatientCare EHR users.

One more achievement iPatientCare has earned that demonstrated its commitment to achieve health information technology that is integrated, interactive, interoperable, and intelligent to provide the best patient outcomes was the iPatientCare EHR ranked 1st for Osteopathic physicians & top 10 in several categories by black book™ in its latest healthcare industry rankings for physician EHR & PM.

Moreover, inclusion of iPatientCare EHR as one of the nation's Top 20 list of the Most Popular Electronic Health Records Software for 2016 by Capterra was one of the notable achievement in the series. Capterra provide rankings of the leading EHR solutions measured by their unique automated algorithm including

the combination of total number of customers, users, social presence, knowledge shared, reviews etc. iPatientCare EHR ranked at 10th place with scoring 60 points.

Finally, iPatientCare successfully concluded National User Conference (NUCON) 2016 with various informative sessions.

About iPatientCare:

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company's unified product suite includes Electronic Health/Medical Record and integrated Practice Management/Billing System, Patient Portal/PHR, Health Information Exchange (HIE), and Mobile Point-of-Care Solutions for both Ambulatory and Acute/Sub-acute market segments. iPatientCare has been recognized as a preferred MU partner by numerous Regional Extension Centers (REC), hospitals/health systems, and professional academies.

iPatientCare EHR 2014 (2.0) has received 2014 Edition Ambulatory Complete EHR certification by ICSA Labs, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS).

Full certification details can be found at ONC Certified Health IT Product List.

The ONC 2014 Edition criteria support both Stage 1 and 2 Meaningful Use measures required to qualify eligible providers and hospitals for funding under the American Recovery and Reinvestment Act (ARRA).
