iPatientCare is All Set to Exhibit and Reveal the Interoperability Capabilities of Its Product Suite During HIMSS 2017 Event

iPatientCare being one of the fastest growing private company of year 2016 and Healthcare IT Industry Leader in 2016 by IHE and HIMSS™ is all set to showcase its Interoperability Capabilities along with Peer to Peer Portal, Provider Portal and Patient Portal at HIMSS17

Woodbridge, NJ, February 7, 2017 — iPatientCare, a pioneer in cloud-based ambulatory EHR and Revenue Cycle Management services announced today its plans to display the Interoperability capabilities of its product suite that includes Peer-to-Peer Portal, Provider Portal and Patient Portal at HIMSS17.

HIMSS™ plays vital role in bringing thousands of health IT professionals, clinicians, executives and vendors from around the world to the same platform. Like every previous year, the HIMSS Annual Conference & Exhibition 2017 will host the most extensive technical exhibition and provide strongest networking opportunities to connect with thousands of industry leaders and other health IT professionals during the event. During 5 days, 300 sessions will take place with participation of 1,200 exhibitors and 45,000 colleagues. HIMSS17 focused on interoperability, Population Health, Connected Health, Population Care Management and many other topics important for the global healthcare IT.

iPatientCare being the first ConCert by HIMSS™ certified ambulatory EHR in 2015 and Healthcare IT Industry Leader in 2016 by IHE and HIMSS™ accepts its responsibility to pay its efforts to be on higher scale to satisfy expectation from industry professionals. iPatientCare works hard to deliver technologies that support patient-centric information architecture for evolving streamlined collaborative workflow among the healthcare professionals and patients. These results by enhanced quality of care, increased patient safety, reduced administrative overheads, and increased effectiveness of healthcare processes.

"iPatientCare is committed to deliver improved outcomes and greater operational efficiency for healthcare organizations, shifting their gear to value based care and shared risk reimbursements environments to meet the increased challenges brought about by healthcare reform. At HIMSS17 iPatientCare is looking forward to showcase its solutions that will help healthcare professionals succeed during their transition to value driven system by demonstrating its product suite for Interoperability, Patient Engagement, and Coordinated Care" said Udayan Mandavia, CEO, iPatientCare.

iPatientCare looks forward to meeting with other innovators, influencers, and attendees across the globe at booth #3331 on the exhibit floor at the event HIMSS17.

About iPatientCare:

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company's unified product suite includes Electronic Health/Medical Record and integrated Practice

Management/Billing System, Patient Portal/PHR, Health Information Exchange (HIE), and Mobile Point-of-Care Solutions for both Ambulatory and Acute/Sub-acute market segments. iPatientCare has been recognized as a preferred MU partner by numerous Regional Extension Centers (REC), hospitals/health systems, and professional academies.

iPatientCare EHR 2014 (2.0) has received 2014 Edition Ambulatory Complete EHR certification by ICSA Labs, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS).

Full certification details can be found at ONC Certified Health IT Product List**.**

The ONC 2014 Edition criteria support both Stage 1 and 2 Meaningful Use measures required to qualify eligible providers and hospitals for funding under the American Recovery and Reinvestment Act (ARRA).
