

Why Ask Why

Verse 1

Oh one thing I've learned in my life
Sometimes, you just never ever know why
When you least expect to go on a ride
All this crap happens
And you get hit from the blind side

Verse 2

We got Facebook and all the opinions on what wave to ride
So many said they'd change the world, God knows if they've tried
Too many things to question those that deny
What's the truth and what is a lie?

Chorus 1

Why ask why we can't change the world
Why ask why we never get the girl
Why ask why when we still try
Oh why ask why, why ask why

Verse 3

John Lennon could only imagine that there would come a day
That there would be peace and love and tranquility
Well there's trouble in the middle east they say
It's what we are fed but is it really, really that way

Verse 4

But I'll tell you,

The one thing I've learned in my life
Sometimes you just never ever know why
When you least expect to go on a ride
All this crap happens

And you get hit from the blind side

Chorus 2

Why ask why we can't change the world
Why ask why we never get the girl
Why ask why when we still try
Oh why ask why, why ask why

End Chorus

Is it the truth or is it a lie
Why ask why, oh why ask why
Why ask why, oh why ask why
Why ask why, oh why ask why
WHY ask why, oh why ask why
Is it the truth or just a damn lie??
