SIMON App Highlights

SIMON is out to revolutionize the payroll industry. With our exclusively designed SmartPay system micro businesses up to 10 employees can do their payroll in 3 simple clicks to their smartphone. Starting at only \$20 per payroll, all-inclusive, there are no additional fees of any kind. The only truly paperless payroll, SIMON is free to download from the app store.

THE PROBLEM WE ARE SOLVING WITH SIMON

Micro-businesses up to 10 employees are overcharged and under served by payroll providers. 3,838,000 micro-businesses out of 5,134,000 (in 2016) typically got ignored and were charged payroll fees that they simply could not afford, leaving them to figure it out on their own resulting in payroll errors and costly IRS penalties.

OUR SOLUTION

We set out with a single focus: to provide a service that micro-business owners can do that is so easy there's no worry about doing payroll wrong and getting fined by the IRS. With the convenience of a smartphone app and thumbprint confirmation, payroll is literally at-your-fingertips, anywhere, anytime.

WHAT IS INNOVATIVE ABOUT SIMON

- 1. There is no other payroll app available on the market today.*
- 2. There is no other 100% Green paperless payroll service on the market today.*
- 3. There is no payroll company on the market today that focuses solely on the micro business with up to 10 employees that needs streamlined services and very affordable pricing to run their payroll.*
