A BRIEF OVERVIEW

An estimated 1.3 billion tons (or 40%) of food grown, processed and transported in the US will never be consumed.

80% of all freshwater consumed in the United States goes towards agricultural irrigation.

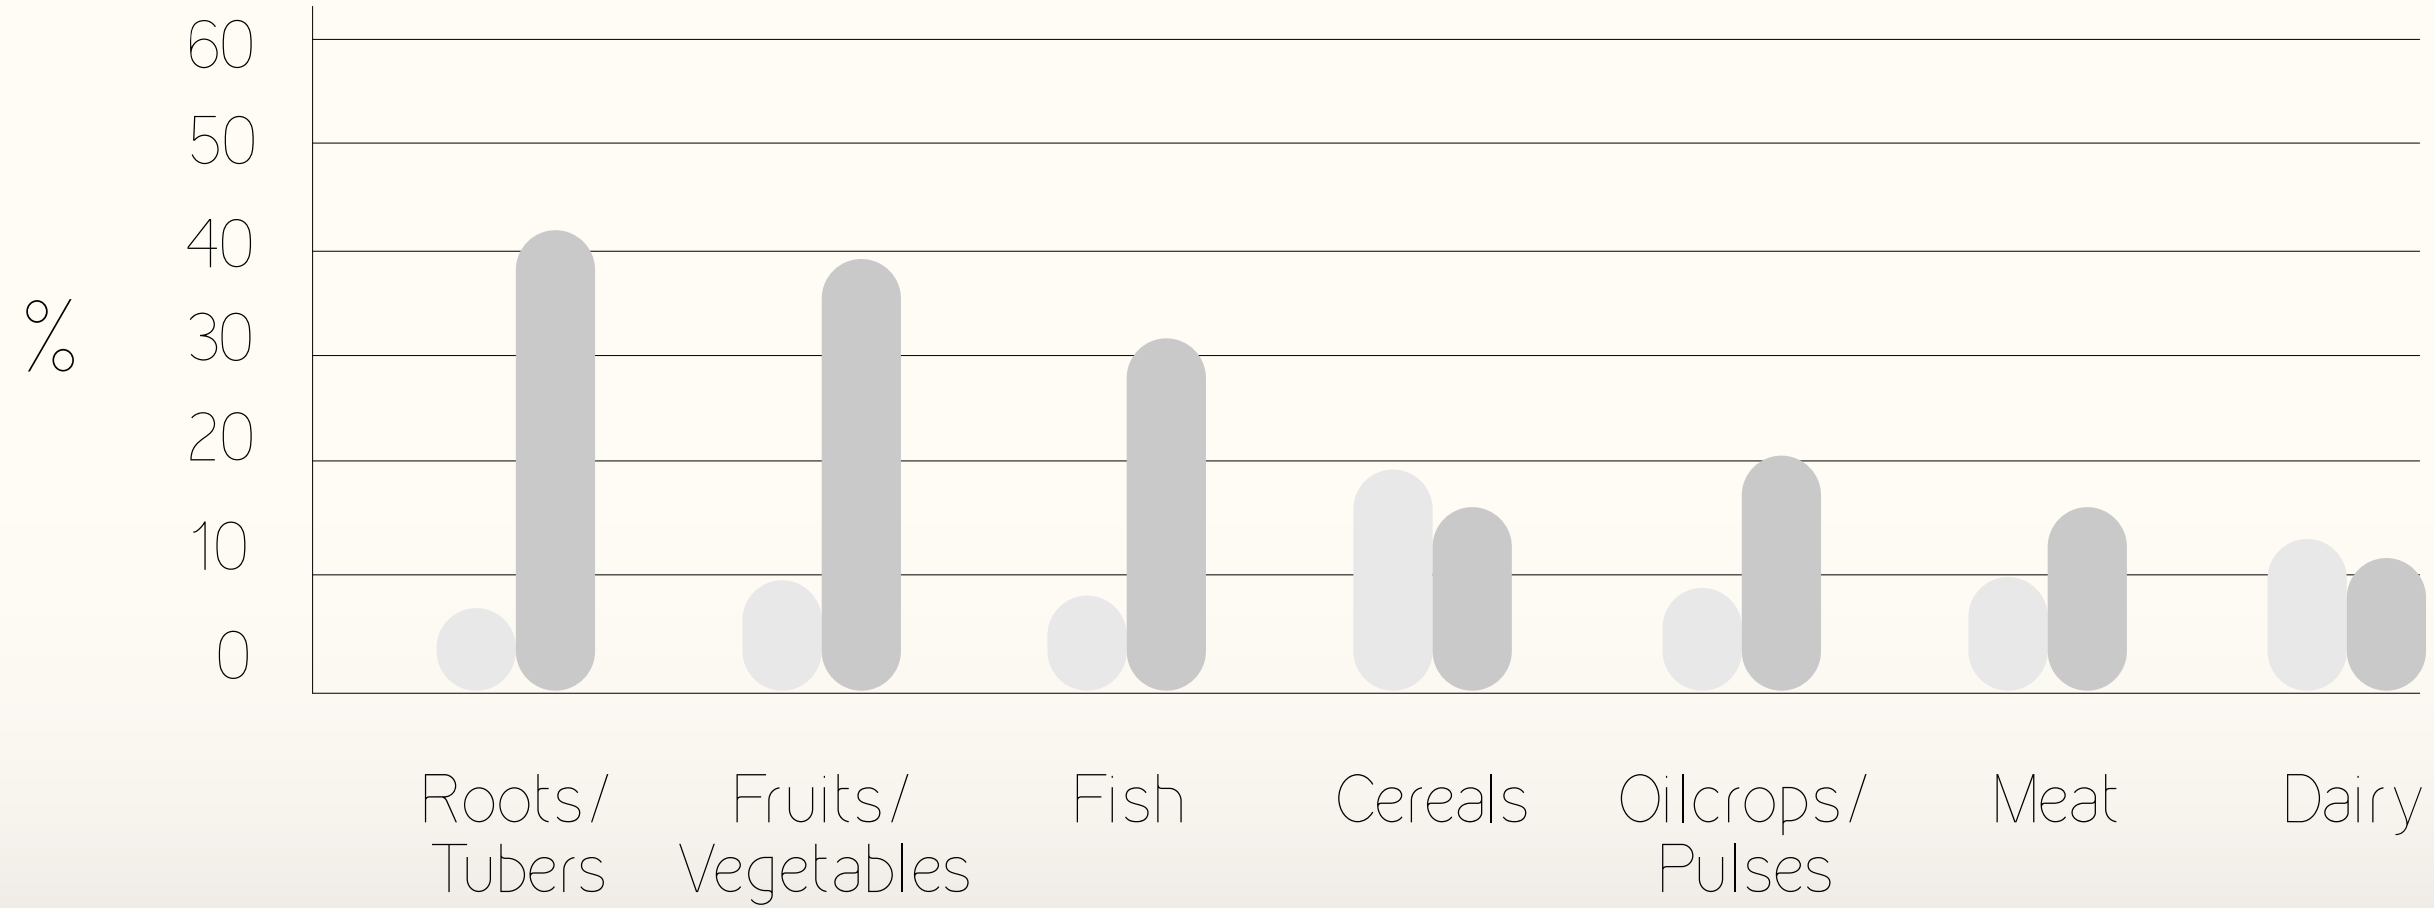

Learning to grow food takes time, money, and experience to do well.

Aeroasis makes in home food growth easier than ever with our automated smart garden; Oasis Mini.

Oasis Mini uses up to 90% less water, 60% less nutrients, and 0% of the pesticides used in outdoor gardening.

The Issue

Consumer Waste
Production Losses

Aeroasis

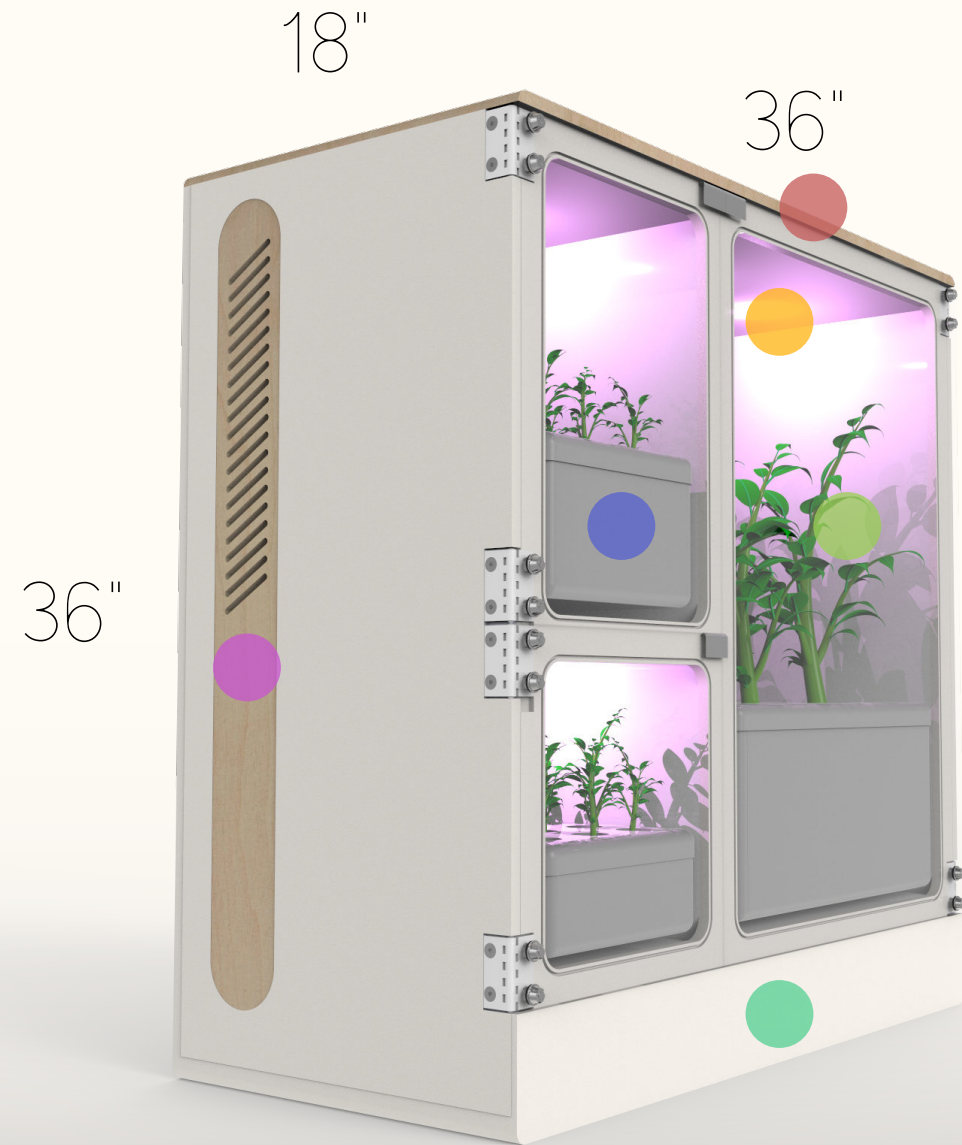

Our Solution

Aeroasis has been developing our technology for over a year and a half, and we are incredibly excited to announce our first smart garden ever.

Oasis Mini
smart garden

Aeroasis

OASIS MINI

- Wood Top Panel
- PAR Optimized LED lighting
- Isolated Root Compartments
- Air Exhaust Vent
- Smart Tint Glass Doors
- Electronics Housing

Our Solution

Intuitive nutrient dosing, no experience necessary

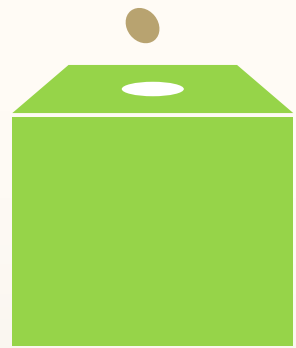

Full environmental monitoring and control

Automated PH dosing

Up to 90% less water, 60% less nutrients,
and 0% of the pesticides used in outdoor
gardening traditionally.

Our Solution

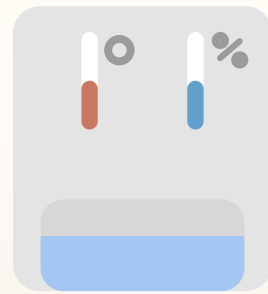

1. Plant Seeds

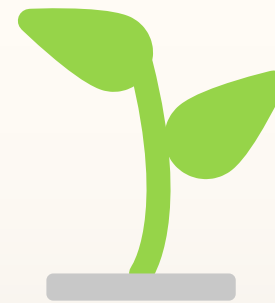

2. Add Nutrients

6. Harvest Food

What This Means For The Customer

X = Harvests per year

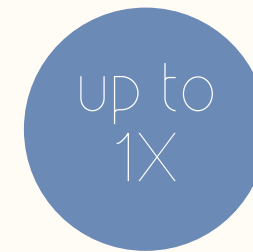

Tomato

Eggplant

Blueberry

Cilantro

Lettuce

Carrots

Aeroasis

Our Vision

Aeroasis seeks to empower individuals and families to make a small lifestyle shift that will go a long way.

We have a clear vision .

To address the issues of food waste, malnutrition, and agricultural water waste at the source.

Aeroasis

Our Vision

Our customers are everything to us, and we are committed to creating great products that will enable anyone to grow their greens right at home.

Aeroasis

Thank you for your interest,
Let's Grow Together.
