Envirosight Offers NEW Confined Space Safety Poster for Sewer Inspection Crews.

Free resource provides information on safe confined space entry.

RANDOLPH, NJ—April 21, 2017— A new, FREE Confined Space Safety Poster from Envirosight provides information on safety measures and equipment every operator should take when entering confined spaces. According to the U.S. Bureau of Labor Statistics, an average of 50 workers die every year from confined space hazards, while hundreds more are seriously injured. Following established procedure is key to keeping workers safe. This poster is designed to reinforce awareness among sewer workers who routinely encounter confined spaces.

“Confined space deaths are tragic and preventable, and we all need a constant reminder of the inherent risks, as well as the proper protocols to follow,” says Richard Lindner, Envirosight’s President. “We created this poster for that reason.”

This poster was published as a part of Envirosight’s commitment to create and share reference material that benefits industry professionals. Request a free copy at <http://inbound.envirosight.com/confined-space-safety-poster>

About Envirosight LLC

Randolph, New Jersey-based Envirosight, LLC provides sewer cameras and other pipeline inspection solutions to municipalities, contractors, departments of transportation, and civil/environmental engineers.
