## IntelliSolution

Optimize your credentialing and/or provider enrollment processes through a seamless combination of software and CVO services

### Overview

IntelliSoft Group's newest offering, IntelliSolution, is a hybrid product offering that combines all the functionality of our credentialing, provider enrollment, and documentation management software along with the vast services provided by the credentialing and provider enrollment team in our CVO division, IntelliCVO. This product is ideal for organizations that want to outsource all, or a portion of, the credentialing and/or provider enrollment process to a CVO while still maintaining control of their database through the software.

### IntelliSolution Includes\*

- **IntelliCred**
- **IntelliApp**
- **CVO Services for PSV and/or Provider Enrollment**
- **IntelliReport**
- **Imaging**
- **WebView**
- **iPop Technology**
- **Five (5) Customized WebCrawlers**
- **IntelliExport**
- **Quality Assurance – OPPE/FPPE**
- **Privileging**
- **Case/Peer Review**
- **Site Survey**
- **Five (5) Full User Licenses**
- **Five (5) Read Only Licenses**

*\*Unless otherwise specified in your quotation*

### Product Benefits

- Monitor exactly what IntelliCVO is doing with your provider files through your own software user licenses.
- Reduce regulatory risk and liability by meeting or exceeding NCQA, Joint Commission, CMS and URAC standards.
- Easily deal with temporary/seasonal workloads by switching from using the software to enlisting the services of IntelliCVO – CVO services can also be provided on a full-time basis.
- Customize the product to meet your organization's specific needs.
- Seamlessly exchange information between your software and IntelliCVO – it's the same database.
- Provide unlimited users with access to an online portal that connects authorized personnel, including providers, with the database for data entry or read-only access in order to track applications, status, privileges and even complete online applications.
- Run standard and customized reports on data in the system using the IntelliReport tool.

## Included Product Services

- **Training** – IntelliSoft offers extensive online training courses that are designed to improve your efficiency and productivity. Additional training options are also available, including our comprehensive eLearning tool, IntelliSoft Group Classroom.
- **Custom Set-up** – Our experienced team will work with you to set up the system according to your needs so that it's ready to go once you have completed your training. Further customization is available if required.
- **Support** – We provide a host of support and service offerings that ensure you take full advantage of all the feature of IntelliSolution. As your organization grows and changes, our support services will help you to adapt and respond as necessary.
- **Modular Approach** – The modular approach used to customize your product gives you the flexibility to purchase only those tools needed for your organization's specific business needs.

## Additional Modules and Services

- **IntelliContract**
- **IntelliExport**
- **IntelliImport Services**
- **Workflow Services**
- **Data Conversion Services**
- **Customization**

## Software Deployment Options

IntelliSoft Group provides flexible implementation options to meet the configuration demands of any organization type. Whether yours is a large multi-location business, a complex single location facility, a small group practice, or a telehealth organization, our implementation team will ensure a successful set up of your new system. Deployment options include both SaaS/Cloud and Self-hosted/Web.

## About IntelliSoft Group

IntelliSoft Group is a leader in providing automated healthcare credentialing, provider enrollment and contract management software to help organizations manage and secure their practitioner data. We also offer innovative Primary Source Verification and Provider Enrollment CVO services using our state of the art software.
