

The Bay Clinic Of Chiropractic

At Bay Clinic of Chiropractic, we focus exclusively on a structural approach in treating our patients, unlike a 'quick fix' mentally providing temporary relief. Our main goal is to determine the root cause of the problem or condition and creating a plan to best treat our patients.

Patient Testimonial:

“Dr. Salamey is a fantastic doctor and man. He has helped my wife when countless medical specialists and doctors could not. She was in terrible shape in March of 2016, could not get well, couldn't even get a diagnosis. This kind doctor has gone above and beyond and my wife is responding and getting better everyday. Now, I'm going to see him to help me with my many health issues. I would not do this if I didn't trust him completely. I highly recommend this office if people want a truly devoted, loving staff that will do what it takes to make you better”
