CONTRACT LIFECYCLE MANAGEMENT SOFTWARE

Software Overview

- Intuitive interface is easy-to-learn, easy-to-use, and easy-to-adopt by everyday business users, as well as seasoned contracting pros.

- True cloud-based solution leverages Microsoft's leading Azure platform for maximum security and performance.

- Improves management of contracts and business agreements across your department or entire enterprise, maximizing the value of every business agreement.

- Drives better management decisions through its reporting capabilities.

- Provides secure, role-based access to contract and agreement data from any location in your entire enterprise, using the web browser of your choice.

- Enables proactive control of key terms and dates via email and system alerts—eliminating the risk of missed deadlines.

- Quickly locate and organize contracts using keyword searches, as well as filtering, sorting, and grouping functions.

- API ready, software seamlessly integrates with any other ERP, CRM, or internal platform.

- Creates complete audit trails of all contract changes to meet your toughest compliance requirements.

- Available with Support and Service options such as: Training, Technical Support, Data Conversion, Best Practice Management, and Configuration enabling you to take full advantage of the software.

OVERVIEW

Contract Logix can help drive your everyday business by maximizing the value of your contracts. Quickly streamline your contract management process, drastically reduce contract management time, and simplify contract authoring and administration.

Use the software to manage the contract lifecycle for any type of business agreement, using its central repository to store and locate the latest version of all your agreements, and its alerts to ensure you never miss an important deadline or requirement.
