Colorado Time Systems Introduces 2nd Generation Water Fitness Bicycle

Loveland, CO—May 10, 2017— Colorado Time Systems, a PlayCore company, is pleased to introduce the 2nd generation WaterFit bicycle. The WaterFit Series product line includes underwater bicycles, treadmills, and trampolines. Each product was designed specifically to withstand the harsh pool environment and rigorous exercise routines.

Key enhancements to the WaterFit bicycle include:

- Lighter weight (30.9 lbs) – 14.0kg
- Rear wheels for ease of placement and removal
- Removable base for compact storage

“We listened to our customers and incorporated new enhancements based on their feedback,” said Rick Connell, CTS Vice President & General Manager. “Storage space is at a premium at most aquatic facilities and the removable base will allow storage that requires a smaller footprint.”

About Colorado Time Systems (CTS)

Colorado Time Systems, a PlayCore company, has established a reputation for precision and innovation in swim timing equipment. Since 1972, premier aquatic facilities have chosen Colorado Time Systems for platinum quality timing, scoring and display systems. Learn more at www.coloradotime.com.
