COMPANY OVERVIEW

R&K Cyber Solutions LLC (R&K) is a leading and award winning provider of Computer Network Defense (CND) Services, Enterprise Information Technology (IT) Management, and Application Development. We provide Intrusion Detection, Incident Response, Malware Reverse Engineering, and Information Assurance (IA) services, as well as Certified Security processes to the U.S. Federal Government (Civilian, Department of Defense (DoD), and Intelligence Community (IC)) and to customers in selected commercial markets. All solutions and services provided by R&K are ISO 27001:2013 certified.

COMPUTER NETWORK DEFENSE SERVICE PROVIDER (CND-SP)

R&K uniquely supports its customers' CND needs by being a trusted partner throughout the entire incident handling life cycle on-site, remotely as a Managed Security Service Provider (MSSP), or a combination of the two. Our CND procedures are derived from industry best practices, such as the DoD Chairman of the Joint Chiefs of Staff Manual (CJCSM) 6510.01b and the National Institute of Standards and Technology (NIST) Special Publication, and then uniquely tailored for each client to provide custom security for their most sensitive data. Our CND-SP services ensure compliance with the Defense Federal Acquisition Regulations (DFAR) Clause 252.204-7012 and NIST 800-171.

MALWARE & FORENSICS

R&K provides a depth and breadth of expertise in malware reverse engineering and forensics investigations that allows customers to fully understand the scope of an intrusion and the information taken by the attackers. We provide malware analysis and digital forensics for law enforcement, Federal, DoD, IC agencies, private corporations, attorneys, and other professionals. We can provide full service incident response, malware reverse engineering, forensic data recovery, presentation, and expert witness testimony as needed.

DEFENSE COUNTER MEASURES & THREAT INTELLIGENCE

R&K provides a unique blend of threat intelligence and engineering expertise ensuring actionable intelligence is translated into defensive countermeasures deployed in near-real time to our customers so they are protected against even the most persistent threats. We also use a proprietary Advanced Behavior Computation analytics to "finger print" malware for high fidelity identification, prevention and remediation.

PAST PERFORMANCE/EXPERIENCE

Defense Intelligence Agency
Our cyber security solution (Hyperion I) provides the opportunity for collaboration between DIA and the Department of Homeland Security (DHS) United States Computer Emergency Readiness Team (US-CERT).

Defense Security Services
R&K provides support to the Insider Threat Identification & Mitigation Center (ITIMC) and provide all personnel, equipment, supplies, transportation, tools, materials, supervision and other items and services necessary to perform the ITIMC.

Department of Housing and Urban Development
R&K provides an incident handling capability for security incidents affecting the Department of Housing and Urban Development (HUD) IT infrastructure. R&K's tasks include post incident analysis, forensics of incidents, and directly interacting with US-CERT on behalf of HUD during and after a computer security event.

Defense Office of Hearings and Appeals
R&K provides 24-by-7 Help Desk/On-Site support, repairs as required, corrective maintenance services, experienced and trained technical resources to ensure the Government's Video Teleconferencing (VTC) Systems remain in good operating condition within commercial standards with minimum down time. R&K performs preventative maintenance on all VTC systems at least twice annually to avoid disruptions in service and to prevent recurring problems.

US Special Operations Command
R&K has demonstrated skills that cross each of the IT service areas. Through team collaboration we gain customer efficiencies and effectiveness. R&K provides services for: IT Service Management, Application Maintenance, Application Development, End User Support and Training, and IT Service Desk.

Seaport-e
Primary Seaport-e holder N0017816D8975 which is the Navy's electronic platform for acquiring support services in 22 functional areas including Engineering, Financial Management, and Program Management for Navy Systems Commands (NAVSEA, NAVAIR, SPAWAR, NAVFAC, and NAVSUP), the Office of Naval Research, Military Sealift Command, and the United States Marine Corps.

AWARDS
2013 – DIA Directors Team Award Citation
2014 – DIA Directors Team Award Citation
2015 – R&D 100 Award Software & Services (Hyperion)
2015 – Bob Bender Leadership Excellence Award
2016 – Supporting the Troops (signed by Ash Carter)
2017 – Top 10 Vulnerability Management Solution Providers
