

PRESS RELEASE

VOQUZ and Tech Mahindra announce reseller agreement in Brazil Tech Mahindra is distributing samQ, VOQUZ' solution for SAP license management and optimization

May 30th, 2017, Ismaning, Germany, and Sao Paulo, Brazil – The VOQUZ Group, a German system integrator and provider of software asset management solutions for SAP, today announces a new reseller partnership with Tech Mahindra Brazil. As part of the agreement, Tech Mahindra will be reselling VOQUZ' flagship product samQ throughout Brazil. samQ is a SAM tool (software asset management) for managing and optimizing SAP licenses across multiple systems. The add-on allows an automatic allocation of SAP user licenses based on a user's actual behavior. This way, companies gain overall transparency of their license distribution across all connected SAP systems. In addition, samQ is a cost-efficient and time-saving tool to detect indirect usage of SAP data.

"We are very excited to announce this partnership. Tech Mahindra is a very strong partner in Brazil, who is an expert for SAP services and business solutions," says Sebastian Schoofs, Executive Director at VOQUZ. "Partnering with Tech Mahindra is a great opportunity to help even more SAP user companies to optimize their SAP licensing and cut down costs on over-spending."

"The partnership with VOQUZ and its tool samQ will provide our customers with a differentiated service and add value to our offerings and open the possibility of bringing new brands to the list of customers of Tech Mahindra", says Alexandre Castro, affirmed Head of Pre Sales.

For further information on the solution contact www.voquz.com or www.techmahindra.com
