FOR IMMEDIATE RELEASE

New, 7-1/4" 24T Blade - Diablo Demo Demon Amped *Next Generation Framing/Demolition Blade Delivers Up to 10 Times Cutting Life*

May 25, 2017 - Introducing Diablo's newly enhanced [Ultimate Framing and Demolition saw blade](#) with Tracking Point Amped™ tooth design for up to 10 times cutting performance in intense applications. This 7-1/4" 24-Tooth Demo Demon Amped™ blade includes a new, industry-first, tooth grind sequence that is specifically designed to provide extreme durability and effortless cuts, even when cutting abrasive materials such as shingles, bolts or nail-embedded wood.

“Through comprehensive field testing and industry-leading manufacturing, we were able to design a market-first 3-tooth grind sequence, called Tracking Point Amped™, which delivers unrivalled cutting life in both framing and extreme demolition applications,” says Russell Kohl, President and CEO. “So whether you’re removing exterior siding or subfloors, cutting into a roof, or framing new construction, you can depend on the new Demo Demon Amped™ blade to provide the ultimate cutting performance”

The 7-1/4", 24-Tooth Demo Demon Amped™ (Item# D0724D) blade retails for \$14.97 and will be available nationwide on May 25, 2017. The new Demo Demon Amped™ blade features:

- **New Tracking Point Amped™ Tooth Geometry**, a one-of-a-kind, 3-tooth grind sequence that slices through intense applications while delivering up to **10X** longer cutting life
- **Lock-Tooth™ Technology**, the industry's strongest tip-to-blade body connection for extreme impact resistance
- **Dura-Blend™ Carbide**, a specialized form of TiCo™ Hi-Density Carbide for extreme durability
- **Perma-Shield Non-stick Coating** resists heat, gumming and corrosion
- **Laser-Cut Thin Kerf** for less resistance and greater cutting efficiency

About Diablo Tools

Diablo manufactures circular saw blades, reciprocating blades, sand paper, bonded abrasives, router bits and forstner bits which are specifically designed to provide superior performance while withstanding the most extreme conditions. Diablo is the only manufacturer of construction tools that produces its own MicroGrain Carbide with Titanium, called TiCo™, a high-density combination of Titanium and Cobalt. By producing their own carbide, Diablo has the unique ability to formulate each tool for each specific application, thereby maximizing cutting life and performance. Diablo has a specialized solution for every application and is guaranteed to provide unrivalled performance.
