

iPatientCare Announced its Significant Achievement of Successfully Reporting PQRS 2016

iPatientCare abetted Physicians' Offices in eluding payment adjustments by successfully reporting to CMS through iPatientCare PQRS Registry for 2016.

Woodbridge, NJ, June 01, 2017 — Being a pioneer in cloud-based [ambulatory EHR](#) and Revenue Cycle Management Services, iPatientCare declares it's noteworthy achievement of assisting numerous physicians' offices and eligible providers in reporting 2016 eminent data through its CMS qualified PQRS Registry.

Since 2014, [iPatientCare](#) has been one of the leading CMS Qualified Registries. It provides online tools to report and gather quality information for CMS PQRS program to both iPatientCare users and non-iPatientCare EHR users. This comprises of both, the eligible professionals and Group Practice Reporting Organizations (GPRO). The experts at iPatientCare helps EP and GPRO in selecting the accurate PQRS reporting method for serving their patients in best manner and by giving assurance that the unnecessary payment adjustments be avoided pro-actively.

"It would have been a difficult year for us without the help and guidance of iPatientCare, to complete the PQRS submissions successfully. I would like to extent my sincere gratitude and appreciation for the assistance that iPatientCare team had provided in order to ensure that all our providers have passed all measures successfully. We appreciate your positive attitude of always providing a support to us whenever required; we enjoyed working with you, as we have accomplished our PQRS submissions." said **Theresa Romero**, [New Mexico Medical](#).

iPatientCare has been very widely recognized for its high caliber products, user-friendly dashboard and reporting, and seamless integration across all its products. Since 2014, we have been serving not only our own iPatientCare EHR users but also numerous non-iPatientCare users by helping them report their PQRS data through iPatientCare CMS Qualified PQRS Registry. We have an independent PQRS Registry Portal that is extremely easy to use for direct data reporting and for uploading data through documents which are then imported in our database automatically. iPatientCare is now approved as a [Qualified Registry for MIPS](#) by the Centers for Medicare and Medicaid Services (CMS) for Year 2017.

About iPatientCare:

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company's unified product suite includes ONC Certified Electronic Health/Medical Record and integrated Practice Management/Billing System, Patient Portal/PHR, Health Information Exchange (HIE),

and Mobile Point-of-Care Solutions for both Ambulatory and Acute/Sub-acute market segments. iPatientCare has been recognized as a preferred MU partner by numerous Regional Extension Centers (REC), hospitals/health systems, and professional academies.

iPatientCare is also known for its Revenue Cycle Enhancement services that provides domestically outsourced, technology-enabled and process-driven solutions for patient access, denials management, HIM/billing and coding, and Lean Six Sigma dashboard-based analytics. iPatientCare has been helping healthcare providers dramatically reduce A/R days and improve collections rates, reduce billing costs, eliminate the burden of repeatable, high volume work on their internal teams, and plug gaps in staffing and internal bandwidth.
