

iPatientCare is pleased to announce its EHR earning eminent 2016 Surescripts White Coat of Quality Award

iPatientCare is glad to announce Its EHR earning a prestigious award "2016 Surescripts White Coat of Quality Award"

Woodbridge, NJ, June 13, 2017 — iPatientCare, a pioneer in [cloud-based ambulatory EHR](#) and [Revenue Cycle Management services](#), announces its EHR comprising of a built-in e-prescribing (eRx) system has earned 2016 Surescripts White Coat of Quality Award. Surescripts' White Coat acknowledges organizations endorsing the highest standards of quality in e-prescribing, consisting of measurement and reporting of e-prescription content quality. Further, it includes - drug descriptions and identifiers, patient directions, prescribed notes and quantity information.

iPatientCare's e-prescribing system is prudently designed to provide quality care and patient safety. The 2016 Surescripts White Coat of Quality Award is a vital measure for testing overall highest standards of quality in e-prescribing. The White Coat Quality award does not just focus on iPatientCare's offerings but also scrutinizes the commitment to train its users on the effective use of its e-prescription technologies.

To qualify for the 2016 Surescripts White Coat of Quality Award, iPatientCare was required to:

1. Submit a letter from senior leadership affirming commitment to a goal of zero electronic prescription content Quality Related Events (QREs).
2. Attain Surescripts certification for EPCS.
3. Attain Surescripts certification for CancelRx
4. At a minimum, 65% of all NEWRX messages must contain a valid RxNorm RXCUI and corresponding Term Type value.
5. No more than 7% of all NEWRX messages are permitted to contain the value of "C38046" (Unspecified) as a Potency Unit Code.
6. Provide sample of best practice document or education program designed to help end-users more effectively use the e-prescribing system to reduce QREs.

"We are honored to be recognized with the White Coat of Quality Award again this year," said [Udayan Mandavia, Chief Executive Officer of iPatientCare, Inc.](#) "Accurate and high quality e-prescribing is an integral part of achieving successful outcomes and delivering high quality patient care for our providers and their patients."

About iPatientCare:

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company's unified product suite includes ONC Certified Electronic Health/Medical Record and integrated Practice Management/Billing System, Patient Portal/PHR, Health Information Exchange (HIE), and Mobile Point-of-Care Solutions for both Ambulatory and Acute/Sub-acute market segments. iPatientCare has been recognized as a preferred MU partner by numerous Regional Extension Centers (REC), hospitals/health systems, and professional academies.

iPatientCare is also known for its Revenue Cycle Enhancement services that provides domestically outsourced, technology-enabled and process-driven solutions for patient access, denials management, HIM/billing and coding, and Lean Six Sigma dashboard-based analytics. iPatientCare has been helping healthcare providers dramatically reduce A/R days and improve collections rates, reduce billing costs, eliminate the burden of repeatable, high volume work on their internal teams, and plug gaps in staffing and internal bandwidth.
