

## **CNP Technologies Joins the RingCentral Channel Partner Program to Deliver the Industry's Leading Cloud Communication Solutions to Enterprises**

**Charlotte, North Carolina – July X, 2017 –** [CNP Technologies](#) today announced that it has joined the [RingCentral Channel Partner Program](#) to now offer its enterprise customers the leading cloud communication solutions that their enterprise customers are demanding as they migrate to the cloud.

“We are extremely pleased to add RingCentral to our portfolio of offerings for unified communications as enterprises are increasingly demanding these solutions,” said John Garrett, CEO of CNP Technologies. “The combination of CNP’s 17 years of implementation and technical expertise in unified communications and RingCentral’s industry-leading solutions will deliver real business value to enterprise customers and make their transition to the cloud seamless.”

RingCentral works with world-class channel partners to deliver cloud communications and collaboration solutions to over 350,000 businesses around the world. Recognized as a leader in the 2016 Gartner Magic Quadrant for Unified Communications as a Service Worldwide for the second consecutive year, RingCentral provides mobile-first voice, video, conferencing, messaging, team collaboration and contact center solutions as a single seamless experience. Easier to manage and more flexible and cost-efficient than legacy, on-premises communications systems, RingCentral’s cloud solutions meet the needs of today’s mobile workforce.

“We are excited to have CNP Technologies join our channel partner program and empower the modern workforce with RingCentral’s collaborative communications solutions,” says Zane Long, vice president of global channel sales at RingCentral. “Together, we will make it easier for partners to enable their enterprise customers to communicate, collaborate and connect so they can realize greater business outcomes.”
