

iPatientCare to demonstrate Revenue Integrity with Predictive Business Analysis in VUCON July 2017 Session

iPatientCare to provide a step by step guide for claim process from payers' viewpoint that will help the providers in a better understanding of the best practices for claim submission procedures and achieving better results

Woodbridge, NJ, July 11, 2017 - [iPatientCare](#), a pioneer in cloud-based ambulatory EHR and Revenue Cycle Management services, announces virtual user conference (VUCON) for providing a step by step guide for claim process from payers' viewpoint that will help the providers in a better understanding of the best practices for claim submission procedures and achieving better results.

The purpose of this conference is to keep the users engaged and updated with the current industry topics and enhancements within the iPatientCare system. Every month these sessions are focused in terms of education, exhibition, and entertainment. This session will explain step by step claim processes from payers' outlook.

VUCON 2017 sessions are designed to provide iPatientCare's new products and software versions along with its demonstration and other useful add-ons as healthcare standards and policies are constantly changing. This session will serve in-depth process break out by explaining step-by-step claim processes from payers' outlook. By attending this session all participants can have a better understanding of how it can be applied to boost the revenue of your practice.

The session will explore hidden and missing charges, under-coding, etc. Secondly it will focus on KPIs i.e impact on revenue and charge capture. Then it will continue with A/R comparative data past, current and predictive. Lastly, it will throw some highlight on total trended A/R days and Black Hole.

This session is due on Thursday, July 13, 2017 at 3:00 PM EST. [Click here](#) to register now!

About iPatientCare:

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company's unified product suite includes ONC Certified Electronic Health/Medical Record and integrated Practice Management/Billing System, Patient Portal/PHR, Health Information Exchange (HIE), and Mobile Point-of-Care Solutions for both Ambulatory and Acute/Sub-acute market segments. iPatientCare has been recognized as a preferred MU partner by numerous Regional Extension Centers (REC), hospitals/health systems, and professional academies.

iPatientCare is also known for its Revenue Cycle Enhancement services that provides domestically outsourced, technology-enabled and process-driven solutions for patient access, denials management, HIM/billing and coding, and Lean Six Sigma dashboard-based analytics. iPatientCare has been helping healthcare providers dramatically reduce A/R days and improve collections rates, reduce billing costs,

eliminate the burden of repeatable, high volume work on their internal teams, and plug gaps in staffing and internal bandwidth.
