

Speakers from CMS to give highlights on proposed changes for MIPS and APMs in 2018 at iPatientCare MACRA eLearning series this July

iPatientCare announces MACRA eLearning session featuring a rich educational session from CMS Speaker

Woodbridge, NJ, July 19, 2017 - **iPatientCare**, being a pioneer in Revenue Cycle Management solutions and ambulatory EHR is organizing a special session with intellectual speakers from CMS, one of them being Benjamin Chin. This session is scheduled for July 27, 2017 at 1:00 PM EST.

As the healthcare providers were just getting used to the two pathways of MACRA, **CMS has already come out with set of new rules**, which is causing great amount of tension and confusion among the healthcare providers. It has become problematic for them to know how to go about with it.

The speakers will shed some highlights on proposed changes, various aspects of MACRA and an overview of APMs in the QPP. This **MACRA eLearning session** (under MACRA eLearning Webinar series) of iPatientCare will mainly focus on promulgating the knowledge on MIPS and MACRA this July, and will proceed with the introduction to advanced alternative payment models (APMs), then continue with criteria for advanced alternative payment models, qualifying APM scoring standard, MIPS APMs, then gradually get into Other Payer Advanced APMs and finally end with proposed changes for MIPS in 2018 and changes in APMs in 2018.

In this manner, the session will educate you thoroughly so that you will know where you stand, how to go about in making the right decision for your practice and know that there is always a way to earn more incentives. iPatientCare is always there to assist your practice in every way to stay updated and organized.

This session is due on Thursday, July 27, 2017 at 1:00 PM EST. **Click here** to register now!

“It has been our endeavor to keep our users updated on the latest developments in HealthCare IT. The overwhelming response of MACRA eLearning series has encouraged us to invite an expert from CMS to impart more specific session on Advanced APMs,” said Arnaz Bharucha, Senior Technology Officer, iPatientCare. She further added, “We are excited to serve the healthcare professionals and provide them with the much-needed assistance through a group of talented individuals, who collectively bring broader and deeper healthcare industry experience and a diverse set of skills and knowledge.”

About iPatientCare:

iPatientCare, Inc. is a privately held medical informatics company based at Woodbridge, New Jersey. The company’s unified product suite includes ONC Certified Electronic Health/Medical Record and integrated Practice Management/Billing System, Patient Portal/PHR, Health Information Exchange (HIE), and Mobile Point-of-Care Solutions for both Ambulatory and Acute/Sub-acute market segments.

iPatientCare has been recognized as a preferred MU partner by numerous Regional Extension Centers (REC), hospitals/health systems, and professional academies.

iPatientCare is also known for its Revenue Cycle Enhancement services that provides domestically outsourced, technology-enabled and process-driven solutions for patient access, denials management, HIM/billing and coding, and Lean Six Sigma dashboard-based analytics. iPatientCare has been helping healthcare providers dramatically reduce A/R days and improve collections rates, reduce billing costs, eliminate the burden of repeatable, high volume work on their internal teams, and plug gaps in staffing and internal bandwidth.
