

Course #504

Regulation for In-Use Off-Road Diesel-Fueled Fleets

September 27th, 2017

8:30 am – 11:30 am

Hawthorne CAT

16945 Camino San Bernardo

San Diego, CA 92127

The Air Resources Board has a regulation to reduce emissions from existing off-road diesel vehicles used in California in construction, mining, and other industries. The Regulation for In-Use Off-Road Diesel-Fueled Fleets (Off-Road Regulation) requires fleet owners to report to ARB and label their off-road vehicles now, and then requires fleets to reduce the emissions from their older equipment beginning in 2014. This course provides detailed information to help fleet owners understand and comply with the Off-Road Regulation.

This course will cover:

- The applicability of the Off-Road Regulation;
- Requirements currently in effect;
- Future compliance deadlines including fleet emission requirements;
- Overview of the Diesel Off-Road Online Reporting System (DOORS).
