ACEBUSTERS

JOIN THE FORCE FOR THE ONLINE POKER REVOLUTION

A decentralized economy to bring poker back into the online world. Poker on the Ethereum blockchain. Ace or bust!

ACEBUSTERS

WE FIX A BROKEN SYSTEM AND MAKE ONLINE POKER GREAT, AGAIN.

Poker is perfect for Ethereum. The market, because it was hit by scams and scandles, offers a huge opportunity to actually apply blockchain technology to fix a broken system. Add to that an ethusiastic team of innovators from both the blockchain and the poker world, who really want to make this happen, come and join us!

A PAIR OF NUTZ BEATS EMERYTHING

SECURITY OF FUNDS

Through your wallet you are in control of your bankroll at any time. No banking counterparty.

FAIR GAMES

At Acebusters we are developing a cryptographic peer-to-peer protocol called Mental Poker. It ensures that the shuffle is fair and nobody can peek at your cards! 100% verifiable by anyone.

AUTONOMOUS ECONOMY

Established online poker platforms create profits in ways that destroy trust with players. Acebusters is a jointly owned and autonomous controlled poker economy run by its players for its players.

PRIVACY ENSURED

As in other blockchain applications, there is no personal information shared. Your wallet is a pseudonymous identifier.

TRUSTLESS STAKING

Smart contracts can act as escrows and are independent by definition. They can be set up for any kind of staking or sidebet scenario.

AFFILIATE PROGRAMS

Anyone can become an affiliate instantly. Earn up to 100% of rakeback for the players you bring to the platform and keep track of your earnings.

SO, WHAT'S YOUR STAKE IN THIS?
What we offer.

YOU GET 5% OF EACH INVESTMENT SOMEONE MAKES WITH YOUR REFERRAL CODE DURING THE CROWDSALE.

ACEBUSTERS

WE'VE GOT BLOCKCHAINERS AND POKER LOVERS ALIKE.

Meet the team.
