**Hurricanes, wild fires, earthquakes, data breaches. With all the disasters in the news, help is available.** On September 14<sup>th</sup> 2017, TS Tech and Berks Fire Water are co-hosting a seminar to help businesses and facilities prepare to recover from a disaster.

**Wyomissing, Pennsylvania, September 14, 2017** – TS Tech Enterprises, an information technology management firm, and Berks Fire Water Restoration Services, a restoration and reconstruction company are co-presenting on disaster preparedness planning for business and facility managers. The course will be held at the Berks Fire Water offices at 1145 Commons Boulevard in Reading PA, 19605. Information and registration is available at [bit.ly/BFWTS17](http://bit.ly/BFWTS17)

“Failing to plan could put you out of business” said Todd Schorle, president of TS Tech Enterprises, Inc. “Just listen to the headlines from the last 7 days: four hurricanes, an earthquake, western wildfires, a major data breach, and several local building fires. It’s not if you will need to recover from a major interruption or disaster, it is when.”

#### **About TS Tech Enterprises, Inc.**

TS Tech Enterprises, Inc. specializes in the management and security of computers, servers and the sensitive data they contain for growing businesses without an internal IT team. [www.ts-tech.com](http://www.ts-tech.com)
