About GM-Standard

Union Built PC's Grievance Manager Standard is the most powerful, cost-efficient Grievance Management Software currently available to Union Locals.

Quickly becoming the Industry Standard, GM-Standard is an easy-to-use, quick-to-launch, mobile-friendly application designed to help you automate the Grievance and Arbitration process. Super-flexible and robust, GM-Standard boasts an open grievances screen with multiple filters, sorts, multi-field search, and color-coded rows for near-due cases. A fine-grained search tool uses up to 47 criteria. View "edit history" at any time and export your searches and reports as CSV files, send via secure quick-links to other users for easy access and download your data securely to local storage or your Union Built Cloud.

No contracts. No commitment. And all for only \$199 per month.

GM-Standard Features

- Web-based and secure with daily backups.
- One hour setup and ready to go for most Locals.
- No user installation required. Works great on tablets, accessible on smart phones too.
- Supports unlimited units and contracts, with separate due-date alert schedules for each.
- Supports users in any of four permission-level groups.
- Super-flexible Open Grievances screen with multiple filters, sorts, multi-field search, and color-coded rows for near-due cases.
- Uploadable members table for quick look-up and auto-population of up to 16 grievant/member fields.
- Uploadable contracts (per bargaining unit) table for easy language search and article/section selection.
- Powerful multi-factor reporting tools for criteria grouping and cross-factor comparisons to "eye-ball" for trends and correlations.
- Results from searches and reports can be exported as CSV files.
- Email and txt-message alerts can be created and changed by your Local's Admin user.
- Clear and easy-to-use grievance input and edit screens.
- Upload unlimited documents per grievance.
- Generate pre-filled PDF summaries.
- Generate pre-filled MS Word letter templates.
- Custom/specialized screens available by quote.
- Send secure quick-links to other users for secure and easy access.
- View edit history of every grievance; who added or changed what, and when.
- Secure data can be downloaded for local or cloud storage.

No contracts. No commitment.

\$199/month

"Union Built PC's Grievance Manager is changing the way we do business in District 3 and enabling us to better serve our members. I can't express how wonderful their staff has been in designing a program built for the specific needs of our District."

*-- Nick Hawkins, Assistant to Vice President
Communications Workers of America District 3*

*"After consideration of several grievance softwares,
we selected Union Built PC in 2012.*

*They worked hand-in-hand with us to build a custom software application,
to our specifications. They were even able to integrate the application
with our existing web site and membership database.*

*And Union Built PC has remained available to support any issues we
encountered throughout the testing and implementation phases.*

*"Our online grievance manager application has now been live for several months.
Everyone from our staff to our members are impressed with the improvement
of our grievance file organization and workflow.*

*[Union Built PC] solved our grievance woes, on time and under budget.
We highly recommend Union Built PC's Grievance application."*

*- Cameron Eby, Provincial Recording Secretary
Ambulance Paramedics of BC CUPE Local 873*

*"Our members who spearheaded this project work as
data processing professionals for the State of Connecticut.*

*They had very high expectations for functionality and usability.
[Union Built PC] delivered a system that fully exceeds our expectations"*

*- Mike Nortz, Director of Administration
SEIU Local 2001*
