ABOUT SUNDEEP NARANG

At the early age of 26, Sundeep Narang has developed the most cutting-edge technology in the financial services sector. Hailing from India, Sundeep is a Node.js-based full-stack web application developer. He received his Bachelor degree in his native country, but was looking for an increased opportunity to grow and learn. Sundeep applied and was accepted into New York University where he received a Master’s of Science in Computer Science.

His passion for innovation and creativity has driven him to create enterprise-scale applications, single-handedly, for the last two years.

Currently, Sundeep is a Senior Software Engineer at Quality EDGAR Solutions, Inc. He is responsible for the development, design, and deployment of web applications that help public companies file forms and documents with the Securities and Exchange Commission (SEC). He also developed a negotiation system, called ETC Unite, to help corporations and unions negotiate labor contracts. This system was certified by SAP and showcased at “SAP Sapphire Now 2014.”

An indispensable member of the Quality EDGAR Solutions team, Sundeep has time after time taken abstract ideas and turned them into problem solving applications in the in computer science realm. The internal database that he built is now the foundation of their document and workflow management. Sundeep has an impeccable work ethic, which he attributes to his father.

In addition to his creation duties at Quality EDGAR Solutions, Sundeep was a mentor for PowerBridgeNY, a program to turn cleantech innovations from the academic research labs of our six partner institutions into strong, cleantech businesses in New York State. Sundeep loves his adoptive country, and wishes to call America his permanent home. When he is not coding, he loves exploring and learning about new technologies like virtual reality.

“ Sundeep Narang is an extraordinary young man...He took the challenge of bringing our development to New York, New York from Minsk, Belarus and delivered on it. Only an individual with extraordinary ability in the field could do that. – Frank Peter Cuneo ”

ABOUT

Quality EDGAR Solutions is a full-service SEC regulatory filing agent and financial printer. Headquartered in New York City, Quality EDGAR offers a full range of services including EDGAR filing, Typesetting and Design, XBRL and Financial Printing. We have built a technology division that is continuously developing cutting edge tools to assist our clients with their regulatory filings. We maintain a team of accountants and CPAs to ensure the highest level of Quality Control in our XBRL filings. Quality EDGAR maintains a state of the art financial print division capable of handling both large and small run projects. Our mission is to provide our clients with white glove customer service at a fair and reasonable price. We value our clients and work closely with them to ensure all deadlines are met and absolute satisfaction throughout the external reporting process.

LEADERSHIP

Recognizing the need for smarter regulatory filing solutions, David and Richard founded Quality EDGAR Solutions. Over the last 10 years, Quality EDGAR has grown to a staff of 30 with more than 150 clients, and offers a broad range of services from EDGAR filing and proprietary software, to financial printing and typesetting and graphic design work.
