hhgregg Sawmill location leased by Appliance Factory and Mattress Kingdom.

Columbus — The hhgregg Sawmill location has been leased by Appliance Factory & Mattress Kingdom, the nation's 28th largest appliance dealer. The grand opening celebration at their 37,000 square foot showroom will start in November 2017.

Appliance Factory & Mattress Kingdom is expanding into Ohio to fill the void left by hhgregg, who served the Ohio market for over 30 years. Appliance Factory & Mattress Kingdom is recognized by the manufacturers across the nation as an aggressive discount appliance and mattress retailer that provides incredible savings to their customers. It's estimated they've sold over 1 billion dollars worth of appliances and saved their customers \$50 million dollars compared to what they would have paid at the big box stores.

They do this by partnering with manufacturers, bringing in special buys, uncrated merchandise, and closeouts with a legitimate savings of 30-60%.

The product is brand new and has full warranty. They also have extremely knowledgeable sales staff and supply their customers with luxury and premium appliances such as KitchenAid, Jenn-Air, Monogram, and Bosch. Owner and CEO, Chuck Ewing: "We opened up in Columbus to fill the void left by hhgregg. We will bring legitimate savings of 30-60% to customers in Ohio. We're also providing jobs to extremely knowledgeable appliance product experts from hhgregg. We've assembled a tremendous staff that has outstanding knowledge and skills to support the customers of Columbus."

For their grand opening celebration, Appliance Factory & Mattress Kingdom has purchased thousands of appliances including hundreds of brand new, in-the-box refrigerator brands such as KitchenAid, Jenn-Air, Whirlpool, Maytag, GE, and Hotpoint and available for 30-60% off. The savings on these refrigerators are unbeatable. They are brand new in-the-box refrigerators that may have cosmetic flaws on the case. They have also purchased hundreds of LG, Samsung, and other branded washers and dryers at incredible savings to their customers. "I am proud to bring real savings to Ohio consumers, unlike anything offered elsewhere in the United States" Ewing stated.

About Appliance Factory & Mattress Kingdom

Appliance Factory & Mattress Kingdom has leased the hhgregg Sawmill location. Appliance Factory & Mattress Kingdom is the nation's 28th largest independent appliance and mattress retailer, moving up two spots from last year. CEO Chuck Ewing started the company in Denver from his garage in 1985 and grew it into a successful local business employing nearly 500 people.
