

PATRIOT VIPER DRAM PRODUCTS

Viper LED Series DDR4 UDIMM DRAM Kits

ABOUT:

Patriot's newest release – the Viper LED Series Computer Memory – was engineered with true performance in mind. It was built and tested for the latest platforms, so it will work seamlessly with your system. No software is necessary so you can take it with you and use it whenever and wherever you need it. The new Viper LED Series was designed with the most competitive and aggressive specifications and built with the best materials available. With the Viper Gaming logo aluminum heatshield and bright LED color available in red or white, the Viper LED Series computer memory is a product you don't want to miss.

FEATURES:

- Series: Viper LED (White and Red LED)
- Edition: Black sides with Silver Viper logo and pattern
- Compatibility: Tested across Intel 100/200 series and AMD 300 series motherboards for reliably fast performance
- Feature Overclock: XMP 2.0 support for automatic overclocking
- Aluminum heat spreader with unique and specific design element
- Country of Origin-Taiwan
- Limited lifetime warranty

VIPER LED DRAM-RED-DDR4

PART NUMBER	CAPACITY	FREQUENCY	CL	VOLTAGE
PVLR416G300C5K	16GB (2x8GB) Kit	3000MHz	15	1.35V
PVLR48G300C5K	8GB (2x4GB) Kit	3000MHz	15	1.35V
PVLR416G266C5K	16GB (2x8GB) Kit	2666MHz	15	1.2V
PVLR416G240C4K	16GB (2x8GB) Kit	2400MHz	14	1.2V

VIPER LED DRAM-WHITE-DDR4

PART NUMBER	CAPACITY	FREQUENCY	CL	VOLTAGE
PVLW416G360C6K	16GB (2x8GB) Kit	3600MHz	16	1.35V
PVLW416G320C6K	16GB (2x8GB) Kit	3200MHz	16	1.35V
PVLW416G240C4K	16GB (2x8GB) Kit	2400MHz	14	1.2V
