

Description

Our RGB LED Landscape / Flood Lights deliver exceptional coverage with flexible beam angles of 15°, 25°, 40°, and 60°. The IP65 rating means they are designed to withstand water, so you can expect for them to endure the elements in wet locales. With a lifespan of 50,000 hours, they provide trouble-free focused LED light for years of service. The RGB feature allows you to create over 16 million color combinations to enhance any application.

Features

- Rated Lifespan: 50,000 hours
- IP Rating: IP65
- Five-Year Warranty
- Environment Friendly
- Color rendering index: Ra>80
- 15°/25°/40°/60° Beam Angles
- CCT: 2700-6500K
- Material Aluminum
- DMX RGB control
- White or Black finish
