**CSL Signs Synergy RFID Inc. as Stocking Distributor for Northern and Latin American Regions**

— *Convergence Systems Limited's advanced RFID solution provides Synergy RFID's VARs and ISVs in the Americas region with a complete package of UHF products—*

December 4th 2017 Hong Kong, [Convergence Systems Limited](#) (CSL), a global company providing passive RFID products and active RTLS equipment, today announced that [Synergy RFID](#) will bring their valued clients in North and Latin America a complete lineup of high-performing and economical UHF products. As CSL's newest stocking distributor, Synergy RFID expands CSL's reach with groundbreaking new technology like the recently-released CS108 Bluetooth RFID Mobile Reader.

"With the recent launch of our newest the [CS108 Bluetooth® RFID Reader](#), we needed to strengthen our distribution capabilities for the Americas region and have a stronger service and support capability for our growing ecosystem of value-added resellers and system integrators in the region," said Jerry Garrett, CSL Managing Director. "Adding Synergy RFID with their extensive experience in RFID and well-established regional coverage especially in Latin America was a win-win for both companies."

"Synergy RFID is extremely proud to offer CSL products to our RFID VARs and ISVs, providing them with a complete platform of UHF products that offer a great price -performance value. The CSL technology platform allows Synergy to serve

new markets and continue its commitment to providing the most extensive and complementary line of RFID products in the market." explains Daniel Montserrat, Synergy RFID General Manager.

The partnership between CSL and Synergy RFID provides new levels of service and support to the region as it gives Synergy RFID's ISVs and VARs access to some of the most advanced and versatile RFID products.

### **About Convergence Systems Limited**

Founded in 2000, Convergence Systems Limited is a leading design engineering and manufacturer of radio frequency ID (RFID) readers, antennas, modules, tags and custom designed OEM RFID products. CSL is unique in providing both passive Electronic Product Code™ (EPC) Gen 2 RFID products, as well as, a full line of active RTLS RFID products. CSL delivers a broad portfolio of RFID hardware that comply with global frequency certifications for retail applications, logistics management, supply chain, manufacturing, pharmaceutical, access control, transportation and other specialized uses.

CSL maintains business operations in three locations: Hong Kong is home to product development and global sales; Dongguan, China is the manufacturing site for all products; and Dallas, Texas is the site of warehouse operations for North American sales as well as local manufacturing requirements.

CSL is a member of standards organization RAIN RFID, AIM and EPC Global, CSL is headquartered in Hong Kong with global distribution channels. For more information, visit [www.convergence.com.hk](http://www.convergence.com.hk)
