

Kelle Sutliff One of the ONLY Psychic Mediums who Predicted Donald Trump As 45th President of The United States Makes Her 2017 Predictions.

Psychic Medium who predicted Trump as our next President is seeing a powerhouse of change for everyone so get prepared for it. There will be a platform of change with The United States Congress and tons of growth in the United States and World Economy.

The election is over and well before it started back in October of 2015 Kelle Sutliff, Psychic Medium knew who the next President of the United States would be! Today she is seeing a new 2017 with many new facets of information taking us into a fascinating 2017 so get ready for some change. Here are her predictions for our New Year:

- * President Trump will be a powerhouse of change so everyone prepare for it "It's a time to get ready for change and progress shifting out the old energy so the new can come in." says, Sutliff There will be lots of review in Congress of programs that do not fit the American agenda anymore. You will see many votes and re votes in Congress. You will see a perfect turnaround for this country in year three of his presidency so be patient. The Trump Era will be very FDR and Reagan like. He will communicate with the American people." He will not hide behind the White House White Walls." says, Sutliff. The Press will start to like him again!
- * There will be tremendous growth in transportations and mining industry and there is lots of new technology on fracking being discovered.
- * The Trade Gates are open there will be countries wanting to engage in proper trade practices with the United States. Look to Japan, China even the Ukraine and Africa to even participate. This will be a time of trust to build a more global economy.
- * Mother Nature and dry ground is not a good combination for any part of the world be prepared for some rocking earth quakes. In the United States watch the belt line in CA. Arizona Oregon and parts of the Mid West will feel these effects.
- * With dryness of the ground fruits and vegetables will go up in price due to damage in crops.
- * The Clintons have more health issues with possible indictments. September time frame around them.
- * I am concerned around Big Ben in England and an attempt for it being destroyed. Other National and International monuments need more protection also.
- * The stock market and housing market for 2017 are great times to see profit. There is an adjustment in interest rates but benefits the economy. The trend of companies pulling back jobs into our United States continues especially in trades.

Sutliff adds, " 2017 is a time to create your own opportunities staying in balance and nurture of self. That means you need to be kind to yourself, step away from your fear based issues and regroup, that is what the world is doing so you need too also. It's a great energy to start a new business, meet new people, get that degree you always wanted. What ever you begin in 2017 you will finish it's that kind of year." How exciting in all this change she adds, " Please don't forget to stay in your honor and be kind to others. If you don't honor your goals chaos will sure find you and no one wants that negative response with the choices you make in 2017"
