## LUCAS NAMED TO FOOD LOGISTICS' 2017 FL 100+ TOP SOFTWARE AND TECHNOLOGY PROVIDERS LIST

Foodservice, Grocery and Beverage Distributors Continue to Utilize Lucas Mobile Work Execution to Improve Distribution Center Efficiency, Order Accuracy and Product Traceability

PITTSBURGH, PA, January 10, 2018 – Lucas Systems, Inc., the leading provider of solutions for intelligent mobile work execution for warehouses and distribution centers, has been named to the 2017 FL100+, Food Logistics magazine's list of the top software and technology providers to the food and beverage, grocery and foodservice industries.

The annual FL+100 Top Software and Technology Providers list serves as a resource guide of software and technology suppliers whose products and services are critical for global supply chains in the food and beverage industry.

"New developments and innovations in the software and technology sector are making sizeable impacts on the global food supply chain," notes Lara L. Sowinski, editorial director for Food Logistics and its sister publication, Supply & Demand Chain Executive. "The result is a greater visibility, improved regulatory compliance, enhanced shelf life for perishables, and the emergence of a more proactive and nimble food supply chain that benefits both the food industry and its logistics partners, as well as the end consumer."

Food and beverage supply chains face unique challenges to increase order selection efficiency while simultaneously ensuring product safety, tracking and traceability. This year, a growing number of food and beverage distributors have upgraded their WMS-directed RF and voice technology to Lucas Mobile Work Execution that make work easier and better for DC managers and associates. These solutions work alongside warehouse management, IT and other systems to improve the hands-on processes that prevail between islands of automation in the DC.

### **About Food Logistics**

*Food Logistics* is published by AC Business Media, a business-to-business media company that provides targeted content and comprehensive, integrated advertising and promotion opportunities for some of the world's most recognized B2B brands. Its diverse portfolio serves the construction, logistics, supply chain and other industries with print digital and custom products, events and social media.

### **About Lucas Systems**

Lucas provides solutions for intelligent mobile work execution that transform end-to-end supply chain operations. We improve hands-on processes and workflows to help people work

smarter and dramatically increase productivity and accuracy. Beyond our passion for process, Lucas has a unique track-record of customer success that translates into an intensely loyal, committed customer base. We work with single-site DCs and large multi-national distributors and retailers across a wide range of industries. Tens of thousands of users at companies like Cardinal Health, C&S Wholesale Grocers, CVS/pharmacy, Mondelez, OfficeMax and Rust-Oleum use Lucas Mobile Work Execution solutions every day.
