

New ventures into gift items make our stores a perfect source for holiday, hostess, birthday, and gift-giving occasions.

Our unique selection is ideal for any wish list.

This is an example of how Candelabra will add an edgy style to a traditional foyer. The feathered headdress is a fresh take on wall décor, as opposed to a traditional mirror. We never hesitate to take on daring pieces to complement a classic console table.

Candelabra is always ahead of the design trends, as shown with this modern floral bench, a perfect example of the current floral design craze. The mix of cutting edge trends with an organic feel is a unique design practice Candelabra implements.

The partnerships we have established throughout the years with brands enables us to bring unique, exclusive designs to our customers.
