## **Factual Data® Integrates with SimpleNexus to Provide Mobile Solutions for the Mortgage Industry**

**LOVELAND, Colo (March 13, 2018)**— [Factual Data®](#), a leading provider of credit and verification services to the mortgage lending industry, today announced an integration with [SimpleNexus](#), a white-labeled digital mortgage platform allowing lenders to take command of the entire origination process and receive alerts from their mobile device.

The addition of Factual Data credit information to the SimpleNexus platform provides loan officers the ability to view a trusted, easy-to-understand credit history of their borrower even when they are away from the office.

“Our goal is to give our clients the option to manage their loan pipeline in the simplest way possible,” said Jay Giesen, president, Factual Data. “We’re excited to integrate with SimpleNexus and provide new options that can help fit clients’ unique needs.”

With SimpleNexus, loan officers can connect with their borrowers and realtors in a single location to easily exchange data and documents throughout the entire loan lifecycle. The platform provides secure, on-the-go access to the loan components lenders need, including borrower credit from Factual Data.

“We are focused on helping solve the mortgage industry’s most frustrating obstacles,” said Matt Hansen, founder and CEO, SimpleNexus. “We believe that adding an established and dependable credit provider, Factual Data, helps lenders reduce the amount of risk they are exposed to while increasing their efficiency.”
