Smart ERP Solutions
Oracle Cloud Services

Full service — from design to deployment and support

SmartERP Solutions® is a unique organization founded in 2005 by Oracle and PeopleSoft veterans. We are focused in the Enterprise Business Application space providing innovative, cost-effective, and configurable solutions and services that efficiently extend the capabilities of ERP systems to meet specific business process needs.

Our specific mission is to provide comprehensive world-class solutions and services to cross-industry clients across the entire spectrum of Oracle products as well as other ERP applications. This includes the ability to provide innovative, configurable, flexible, cost-effective solutions and services to common business challenges, enabling clients to save time, increase productivity, minimize costs, and maximize their return on investment.

As an Oracle Platinum Partner since 2011 and approved Cloud Standard Implementation Partner, we are a developer of solutions and services that enhance and support Oracle applications. Our organization is dedicated to delivering innovative and leading-edge solutions and services based on Oracle technology, including Oracle E-Business Suite, PeopleSoft and JD Edwards applications as well as the multi-pillar Oracle Cloud platform offerings.

Our Oracle Cloud services include the following:

ORACLE CLOUD PRACTICE
SmartERP is laser-focused on their clients and provide tailored solutions and services in order to support national multi-pillar Oracle Cloud implementations and application support services client initiatives.

> " The entire SmartERP team has been very accommodating during the creation and implementation of our program "
>

Smart ERP Solutions
Oracle Cloud Services

SmartERP enables clients to seamlessly integrate their people, processes, applications, and data, across an enterprise, enabling their organization to streamline its operations and support business growth. We offer organizations end-to-end solutions providing the right design and implementation from start to finish. Our services business includes a global 24/7 seasoned and experienced staff of experts to help you implement your business applications efficiently and effectively at a very cost-effective rate.

SmartERP is the integrated ERP solution and services firm solving business critical challenges from design to deloyment and support. Our organization delivers consulting and implementation services that link Enterprise Resource Planning (ERP) Financials and Enterprise Performance Management (EPBCS), Supply Chain Management (Procurement, OM, Planning, Forecasting and Manufacturing), Human Capital Management (Core HR, Payroll, Compensation, Recruiting, Onboarding, Learning & Performance), Customer Experience (Marketing, Sales, Service and Social).

Because there's a Financial, Supply Chain, HCM and CX component to every organization, we have developed a great deal of expertise implementing and integrating core ERP solutions, such as Oracle E-Business Suite, PeopleSoft, JD Edwards and multi-pillar Oracle Cloud ERP solutions.

ORACLE SERVICES

With proven experience in Oracle, SmartERP aims to help organizations gain insights on ways to enhance business processes through the utilization of SmartERP technology and services.

SmartERP partners with their customers to break down information silos and optimize performance to accelerate innovation, fuel growth and achieve operational excellence.

To achieve real agility and enable innovation, not only do you need to have best-of-breed processes, systems and applications, but you need them working together for the same goal.

Best-in-breed enterprise applications can only do so much and it's crucial that you have business processes, data architecture and accompany-ing analytics to gain critical insights across the entire organization to make good decisions.
