iPatientCare supports and contributes for World Immunization Week, 24 - 30 April 2018

iPatientCare abides by 'Protected Together' – the goal of World Immunization Week and shows collective actions needed for protection from deadly diseases

Old Bridge, NJ, Apr 11, 2018 - **iPatientCare**, a pioneer in cloud-based ambulatory EHR and Revenue Cycle Management services, announces its participation and support for the World Immunization Week from April 24th – 30th, 2018. This week gathers public and private healthcare organizations working together to elevate awareness on immunizations and vaccinations. It also sheds light on technological development in immunization, and demonstrating value of health.

The **World Immunization Week from April 24 to 30th** is dedicated to spread awareness against different infectious diseases and how to gain protection from it. This week enables national priorities like education and economic development providing trustworthy information about vaccines. The journey of vaccination dates far back, where the individuals across the world contribute in many different ways to this goal. This week is an opportunity to celebrate the commitment and efforts put by each individual and different communities.

This year's theme – 'Protected Together' boosts individual at every level to give importance to the vaccines and make sure people get their family members vaccinated. Many third world countries have achieved and made progress in providing life-saving vaccines to as many people as possible. The aim is to prevent millions of deaths from vaccine-preventable diseases and offering every child a chance at healthy life from the time of their birth.

"We participate in the World Immunization Week to show our commitment towards improving health information technology and providing best patient outcomes. iPatientCare is always working towards technological advancement that helps the medical system work with more ease." Said **Shahab Shekh, Chief Implementation & Integration Officer, iPatientCare**.

iPatientCare, being a cloud-based EHR is an asset as the providers are guaranteed that their valuable data is safe from all the disasters. Our EHR, being least complicated and user-friendly, provides convenience to the providers in their daily routine. It also encourages patients to manage their own health proactively using patient portal. The patient is also given full freedom to customize their portal too.

About iPatientCare:

Based at Old Bridge, New Jersey, iPatientCare is a private-held Corporation that is nationally recognized as one of the leading companies providing EHR and integrated MACRA-ready solutions and intelligent medical billing and revenue cycle enhancement services to physician offices providing primary and specialty care, rural health clinics, and community/federally qualified health centers (CHC/FQHC) nationwide.

At iPatientCare, we help healthcare providers to dramatically reduce A/R days and improve collections rates, reduce billing costs, eliminate the burden of repeatable, high volume work on their internal teams, and plug gaps in staffing and internal bandwidth. Our expert teams are comprised of senior executives with extensive experience in clinically-driven revenue cycle management systems including certified billers and coders with managerial capabilities to facilitate client interactions, escalations and SLA. We also provide a dedicated account manager and a team of talented experts assigned to work as an extension of your office, instead of operating as an outsourced billing company or technology vendor.

iPatientCare EHR 2014 (2.0) was 2014 Edition Ambulatory Complete EHR certification by ICSA Labs. Full certification details can be found at ONC Certified Health IT Product List. Now, the newer version of iPatientCare EHR - version 18.0, has received 2015 Edition ONC Health IT certification by Drummond Group, an Office of the National Coordinator-Authorized Certification Body (ONC-ACB), in accordance with the applicable eligible professional certification criteria adopted by the Secretary of Health and Human Services (HHS). Full certification details can be found at ONC Certified Health IT Product List. If desired, we make the difficult tasks of revenue cycle optimization and MACRA/PCMH/QR reporting easier by bundling innovative EHR and other cloud-based practice solutions as part of our revenue cycle management and MACRA consulting services at no additional costs.

As part of its MACRA-ready solutions, iPatientCare has been recognized as a qualified MACRA-MIPS registry for the year 2018 by CMS, and has a distinguished credit of being selected as a preferred EHR vendor and medical/chiropractic billing company by more than 70,000 users nationwide, numerous hospitals/health systems, federally funded regional extension centers, and in the past by the US Army and NASA Space Medicine.
