► Description

Roman Town 2 makes history come alive for students. With its basis in accurate and detailed information, the game allows for players to become immersed in Roman culture while being entertained by challenging puzzles. Through conversations with characters, exploration in several locations around Pompeii, and introduction to Roman games, players will learn all about the Roman Empire.

Join Team Q on their quest to stop the devious Ladrone from stealing the artifacts of Pompeii. Play as the precocious duo Fiona and Charlie to gather information and solve puzzles that will lead them to the master thief. They will need to learn all they can about life in ancient Rome to defeat her.

► Features

- Solve unique, re-playable puzzles
- Investigate clues to track Ladrone
- Play ancient Roman games
- Gain detailed factual information about Roman life
- Switch between the different gameplay styles of twins Fiona and Charlie
- Explore locations based on the real-world Pompeii
- Put emphasis on problem solving and critical thinking
- Enjoy entertaining and immersive learning
- Learn based on the National Council for Social Studies and Common Core State Standards for Math and Literacy.

► Awards & Testimonials

“This game is packed with information about the Roman Empire, which is seamlessly integrated into a fun and engaging game. Because kids explore the various settings of ancient Rome, and the quest to find and learn about artifacts is essential to the story, the learning occurs in a very fluid and natural way.”

-Mark Raby, Common Sense Education

“I have no hesitation in recommending Roman Town to anyone...It’s fun and educational while building critical thinking skills. Dig-It! Games did a fantastic job putting this app together.”

-Erin Amundson, Schoolhouse Review Crew
