Tompkins International Annual Supply Chain Leadership Forum Keynote Speech

Two hundred supply chain experts have taken their seats to listen to Dr. Tompkins' keynote.

Raleigh, NC - [Dr. James A. Tompkins](#) is addressing the Digital Imperative: Dealing with Uncertainty, Speed, and Reinvention at the 14th Annual Tompkins International Supply Chain Leadership Forum. Two hundred supply chain experts have taken their seats to listen to Dr. Tompkins begin his keynote speech. Dr. Tompkins, CEO of [Tompkins International](#) and CEO of [MonarchFx](#), is explaining the digital imperative that all organizations must understand in order to succeed.

Dr. Tompkins is addressing five important questions.

1. What is the digital imperative?
2. What is the disruption cycle?
3. How grasping uncertainty, speed, and reinvention will ease your disruption cycle journey?
4. How to empower your organization to deal with the disruption cycle, uncertainty, speed, and reinvention?
5. How can you follow the disruption cycle to change the world?

In order for supply chain organizations to evolve to the next generation supply chain they need to understand the answers to these five questions and have the ability to address them.

“The future for supply chain organizations is awesome. There has never been the level of opportunity for supply chain organizations as there is today. The key to success is to build your resilience and vitality, allowing focus to enhance your ability to address the uncertainty, speed, and reinvention of the disruption cycle,” states Dr. Tompkins.
