Together we are unstoppable.

E pluribus unum (out of many, one) has been a motto for our country since its earliest days. It also describes how teams are built. At a time when individuality is revered, every company -- every department within every company -- is challenged to transform groups of individuals into effective teams. The most successful teams have a trust in each and a commitment to all.

Raydon has 30 years of experience building team synergy. Bring us your individuals, take them away from their familiar battles, and we'll immerse them in a virtual reality training experience where success is only possible with communication and coordinated teamwork.

FEATURES

- * Increase the efficiency of your team
- * Learn what it takes to succeed from military successes
- * Diversity to Chemistry
- * Customizable based on your team size
- * Choose a Raydon experience or work with us to build something just for you.
- * Chemistry can't be measured, but success can.
- * Come to us or we come to you

Team Building Experience ★

Raydon's Corporate Team Building offerings allow teams to game plan, communicate on a secure team channel, solve fast-paced tactical problems and adapt plans on the fly all while aligning around a common goal. We will provide a facilitator who will not only setup the VR systems but also teach basic combat vehicle tactics, scanning techniques and weapon employment.

Built with advanced military simulation equipment, this military-style VR experience provides the opportunity to work as combat vehicle teams in a convoy formation traversing an immersive virtual environment. Our VR host will walk you through mission planning to execution. Every participant including the vehicle commander, gunner and driver, is empowered to impact the outcome of the operation.

Raydon provides a turnkey service that delivers team-based training to your location. Our service provides an operator for setup and tear down, queuing and onboarding service, and a very immersive VR experience with teams of military vehicles planning, coordinating, and working together in a series of thrilling battles.

Go to war with your co-workers. Feel the "Ma Deuce" heavy machine gun firing lead downstream. Learn to coordinate your fire in a team-based virtual environment. Become enveloped in the graphics and special effects of the latest game technology. Learn from your mistakes and watch your team climb the leaderboard or spiral down as other surpass your score in the exciting, fast-paced gunnery experience.

Utilize a high-end, military-style VR experience that provides the opportunity to work as a combat vehicle team in a fast-paced immersive environment. Our VR host will walk you through mission planning to execution. Every participant is empowered to impact the outcome of the operation.

Raydon provides a turnkey service that delivers team-based training to your location. coordinating, and working together in a series of thrilling battles. Onboarding kiosk outside of trailer co-located with an eye drawing audio/video playback system.

Utilize a high-end, military-style VR experience that provides the opportunity to work as combat vehicle teams in a battle of attrition set an immersive virtual environment. Every participant is empowered to impact the outcome of the operation.

UNLEASH

Four simulated military vehicles consisting of pcs, VR HMDs, motion-based driver seats with vehicle controls, and simulated turret gunner with mounted heavy machine gun, provide recruits an convoy protection experience in a wasteland environment! VR hardware is integrated into a trailer with HVAC, networking, power and safety systems. Externally branded for your event with customizable locations on the trailer wrap. On-site Raydon personnel to setup, tear down, and facilitate the experience. Onboarding kiosk outside of trailer co-located with an eye drawing audio/video playback system.

From diversity to chemistry

Diversity adds valuable experience and input to a team. But team success depends on chemistry. Generation after generation, the premier organization in our country's history with proven success in molding diverse individuals into a cohesive team is the United States Military.

What it takes to succeed

How do they do it? Raydon's virtual reality training systems are a key component of our military's training programs. A mission is established. Roles are assigned. Communication channels and tools are provided. And your team is turned loose on a virtual adventure that will expose them to a different type of coordinated effort - one that builds a deeper understanding of what it takes for a team to succeed.

Increase efficiency of your team

Team dynamics change when there is immediate feedback to the whole group. When a slip-up sends the team off course, everyone knows immediately and as a group the mistake is acknowledged and corrected quickly and efficiently. Raydon's team training experiences provide the consequences and immediate feedback that drive teams to rally together. Together your team will learn to communicate better, to coordinate their actions, and to contribute to the efficient teamwork needed for a competitive advantage.

Raydon's Expertise in Action

Raydon is an innovative company that quickly adapts scientific research and commercial-off-the-shelf components to our customers' training problems. We apply the latest human science and commercial technology to different combat platforms, different training missions, to counter different enemy tactics.

Leaning on 30 years of experience, we help customers balance accessibility and fidelity to deliver highly effective training that values readiness, soldiers' time constraints, and cost concerns.
