WHAT OUR CLIENTS SAY

I find WFT's work ethics, reasoning ability, and their depth and breadth of technical skills to be among their greatest strengths, along with their flexibility to remain responsive at very competitive pricing. I highly recommend Wharfedale Technologies, Inc.

- Caldwell Velnambi,
CEO | President, ERP Logic inc.

Our experience with WFT is exceptional. WFT has helped us realize a vastly improved return on investment with our Vblock and HANA deployments. They have demonstrated commitment to professionalism and bring a breath of technical knowledge and skills. I would definitely recommend WFT as a partner in any project or operations relating to Converged Infrastructure, SAN, Backup, Disaster Recovery, and High Availability.

- Michael Moore,
IT Director, TransAlta Corp.
