Press Release

SILICON VALLEY— (PRWEB)— Illumeo Announces 2018 Student Scholarship Program

Illumeo is very happy to announce that it is launching a scholarship program through which 70 qualifying students in undergraduate, graduate and post-graduate programs in audit, accounting, corporate finance and related areas will win a full, one-year scholarship to Illumeo's online learning platform.

Whether you are an undergrad studying accounting or business, an MBA or Master's candidate, or if you are pursuing a post-graduate certification such as a CPA, CMA, or the like - and many more related areas of study - you can qualify for this scholarship program.

It's tough being a student. Not everyone learns at the same pace nor are they all on the same wavelength as their instructors. Illumeo gives learners an opportunity to learn, on-demand in an engaging video-based learning platform, from experienced subject-matter-experts. The Illumeo Student Scholarship is an opportunity to bring students in audit, accounting, corporate finance and related areas an abundance of real-world knowledge in the form of 1,000 on-demand, online courses, at their command.

"We are thrilled to be able to offer these scholarships to hard-working students," said John Kogan, Founder and CEO of Illumeo. "The topics we cover are challenging to even experienced practitioners, and if we can make learning easier for students we will be doing a good thing for them as future practitioners themselves."

There are some qualifications involved as this program is aimed at students currently in audit, accounting, corporate finance and related topic areas at multiple levels – undergraduate, graduate, and post-graduate. Please go to www.illumeo.com/scholarship to learn more about the program and to register.

ABOUT ILLUMEO
Illumeo is the LMS for CPE. Incorporated in 2009 and based in Silicon Valley, CA. The platform is used at small, mid-sized, and many of the largest companies in the world. Illumeo's instructors are respected senior practitioners in their fields, and they build top quality courses accessible through the cloud-based Illumeo platform on any web-connected device. Illumeo helps corporate functional leaders and HR/L&D professionals serve their employees and, critically, bring their learning onto corporate systems where their efforts can be measured and reported, while at the same time offering significant cost savings through improved visibility and control over their training spend.
